CHAPTER I - GENERAL REGULATIONS

1. AIM

[GR]

The object of a Canoe Slalom competition is to negotiate a river defined by gates, without fault, in the shortest possible time.

2. INTERNATIONAL COMPETITIONS

[GR]

2.1 All competitions announced as international shall be governed by the rules of the ICF.

2.2 Competitions organised by a Federation or its affiliated associations are always regarded as international if foreign athletes are invited and participate.

2.3 An international competition must be supervised by at least one judge who holds a valid card as an International Judge Canoe Slalom (IJCSL).

2.3.1 These officials are appointed by the CSLC Chair from nominations submitted by the organisers.

2.3.2 The organising Federation pays for room and board for these officials.

2.4 There are four types of international competitions for Canoe Slalom:

	Type of Competition	Competition	ENTRIES
LEVEL 1 (see chapter IV and V)	ICF competition	ICF World Championships. ICF Junior and Under 23 World Championships	3 boats per event per Federation
LEVEL 2 (see chapter VII)		ICF World Cups	3 boats per event per Federation (see rule 44.3.1)
LEVEL 3		ICF Canoe Slalom Ranking competitions	To be determined by the organiser with a minimum of 6 boats, per event, per federation.
LEVEL 4	International Competition	International competitions	To be determined by the organiser

2.5 Canoeing competitions in continental and regional multi-sport Games and championships shall be organised under the ICF rules and regulations for World Championships for that discipline. The Olympic events should be used as a base for the competition programme in continental Games. The organisation and programme of the canoeing in multi-sport Games on a world level must be approved by the ICF and for continental level by the continental canoeing association.

3. ATHLETES

[GR]

Supprimé: 3 COMPETITOR

3.1 Only the members of clubs or associations affiliated with an ICF National Federation have the right to participate in an international competition.

Supprimé: 3.1

3.2 An athlete having satisfied 3.1 and also having first obtained the (written) consent of the athletes Federation, is permitted to compete individually in an ICF Competition at level 1 to 3.

3.3 Sporting nationality change

3.3.1 An athlete who has competed internationally at any level in the last 3 years requires authorisation from the ICF and the national federation of the original country in order to change sporting nationality.

3.3.2 For an athlete to be eligible for a change of sporting nationality they must have lived in that country for the last two years.

3.3.3 An athlete who is aged 18 or under can change sporting nationality with the approval of the two national federations involved. He/she is not required to fulfil the two year residency rule.

3.3.4 The request of the change of sporting nationality must be made to the ICF by the new National Federation no later than 30 November the year before the athlete wants to compete.

3.3.5 For the Olympic Games the Olympic Charter rules will be applied for nationality issues. For athletes to be eligible for the Olympic and Paralympic Games they must hold citizenship/nationality of the country that they participate for at the time of the qualification event.

3.3.6 An athlete may not compete for more than one Federation in any calendar year in canoeing.

3.4 The first year an athlete can compete in an ICF or International competition is the year of his/her 15th birthday. The last year they can compete in a Junior category is the year of his/her 18th birthday falls in. The last year they can compete in Under 23 category is the year of their 23rd birthday.

3.5 Master(s) athletes can compete in a Masters event in the year that he/she reaches the lower limit of the age categories, i.e. in the 35-39 age group they are eligible to compete the year of their 35th birthday. In events that have two athletes in the boat, the age of the younger athlete will control the category in which the pair can compete. Age group categories will commence from age 35-39 and increase upwards in 5 year age intervals.

3.6 Each Federation shall ensure that their athletes are in a good state of health and fitness which allows them

CHAPTER III - RACING ORGANISATION AND REGULATIONS OF THE COMPETITIONS

8. OFFICIALS

[TR]

Depending on its nature and importance, an international Canoe Slalom competition is managed by the following officials:

8.1 Jury

8.1.1 An International Canoe Slalom competition must have a Jury consisting of 3 members. Members of the Jury must be IJCSL.

The organising Federation, on the basis of nominations received from the participating Federations names the members of the Jury. A participating Federation may not have more than one Jury representative.

The representative of the organising Federation shall preside over the Jury.

8.1.2 The Jury receives protests concerning non-observance of the rules of competition and makes the final decision in the event of disagreement concerning any interpretation of the rules. Decisions of the Jury must be in accordance with ICF rules.

The Jury may disqualify an athlete for the entire duration of the competition. The Jury decides on all questions raised during the competition that are not covered by the rules.

In the event of a tied vote, the Chair of the Jury decides.

8.3.1 Organisation of the Examination:

An Officials Examination is organised at every World Championships if there is sufficient interest.

Supprimé: <#>Organisation¶
<#>

In the case of non World Championships examinations, only Continental Associations or Federations are entitled to apply to hold an examination. This is done together with the application for the Competition Calendar using the form established by the ICF and published on the ICF website.

Supprimé: <#>

Application deadlines are the same as for the International Competition Calendar. The Examination Calendar is published on the same date as the International Competition Calendar.

8.3.2 Candidates

Only Federations are entitled to nominate candidates for examination at least 30 days before the examination. The applications must be sent to the ICF Headquarters on the form designed by the ICF and published on the ICF

Supprimé: <#>¶
<#>¶

website. The ICF Headquarters will forward the list of names to the CSLC Chair.

8.3.3 Conduct of the examination

A sub-committee consisting of two members, appointed by the CSLC Chair, will administer the IJCSL examination. The examination will be carried out in English for officials who wish to be considered as officials for ICF Competitions and will be based on their knowledge of the ICF Statutes, the ICF Rules and practical assessment. If candidates take the examination in any other official language, they may not be considered for officiating at ICF Competitions.

8.3.4 Officials' Cards

After completion of the examination the CSLC Chair completes the ICF Official Examination Report and sends it to the ICF HQ, where the Official's cards for those who passed the exam are issued and sent to the Federations.

8.3.5 Validity and Renewals

Validity and renewals are subject to the Technical Chairs' criteria. If the Officials' Card expires, is lost or destroyed a 20 euro fee for renewal will be charged.

8.3.6 Financial Responsibility

Federations are financially responsible for their Officials (before and after the examination).

For every candidate applying for the examination, the federation will be charged 20 euro. The total invoice will be sent to the federation in the period between 30 October and 30 November for the current year.

If a federation applies for an examination out of World Championships, the federation concerned will cover the examination organisation costs including the full board and travelling expenses of the examiners.

8.5.2 The deadline for submitting nominations is the 1st of October in the year previous to the event.

8.5.3 The nominations are submitted to the CSLC Chair and to the ICF Headquarters.

8.5.4 The Chair will present a list of officials to the Board of Directors for their approval by the 1st of December in the year before the competition.

8.5.5 For selection of Officials for the World Championships (ICF competition LEVEL 1) see **41.10.3**

9. DUTIES OF OFFICIALS

[TR]

9.1 The **Chief Official** directs the competition according to the rules. For ICF competitions (LEVEL 1-3) the Chief Official must ensure that the Competition results and the list of Officials are submitted to the CSLC Chair immediately after the competition. The Chief Official is a member of the Course Approval Committee.

9.2 The **Technical Organiser** is responsible for the local preparations for the competition, the conduct of the entire competition and the installation and proper functioning of technical equipment required for the competition. The Technical Organiser is a member of the Course Approval Committee.

9.3 The **Chief Judge** must ensure that the competition is run correctly and in keeping with the competition rules. The Chief Judge applies the competition rules and may disqualify an **athlete** or grant a rerun.

The Chief Judge is the final arbiter on all judging matters. When there is official television or official video of the event, he/she may avail himself/herself of the television or video footage to assist in their determination of any relevant matter or protest. After the Chief Judge has ruled on an enquiry concerning penalties the result then becomes a matter of fact and therefore cannot be enquired/protested further. The Chief Judge is a member of the Course Approval Committee. The Chief Judge must use available technology (weather reports, wind meters etc.) to be aware of changes to the race conditions (e.g. weather - wind, lightening, water level) and respond accordingly.

9.4 The **Chief Judge** must submit a report using the Chief Judge report template on the running of the competition to the CSLC Chair after the **competition**.

9.5 The **Assistant Chief Judge** will closely co-operate with the Chief Judge and the Chief Official and will assist with the administrative tasks related to the competition especially judging locations and instructions to judges. He/she will collect the enquiries from the team leaders of the participating countries during the **competition** and will oversee the process of the checking of the judging documents.

He/she will oversee the collection of the forms necessary

Supprimé: event

for the administration of the Enquiry Office and any other matters necessary for the Secretariat.

He/she will assist in the formulation of the decisions of the Chief Judge regarding any enquiries/protests and will oversee the recording and archiving of all relevant official forms.

9.6 The **Transmission Judge**, who may also act as a Primary or Secondary Gate Judge, is responsible for the transmission of the final decision of the Primary Judge/s to the Scoring Office. Normally the Transmission Judge will collate and transmit the results of a number of gates assigned for a Section. **The Transmission Judge** signals the penalties for each gate with the corresponding discs, cards or section scoreboard.

9.7 The Gate Judge

9.7.1 **The Gate Judge** is responsible for observing and recording an **athlete's** passage through their assigned gates.

Supprimé: competitor

9.7.2 At the discretion of the Chief Judge, a Gate Judge may be assigned one or more gates for which they will **make** the final decision of the **athlete's** passage.

Supprimé: competitor

9.7.3 This Judge will be referred to as a Primary Judge and may also provide their own assessment of adjacent gates to the respective adjacent Primary Judge/s.

9.7.4 In arriving at the final decision the Primary Judge must also consider the adjacent Gate Judge's observations, especially those who may be in a better position for a particular negotiation (better position may mean being closer or further away but on a better angle for each individual case).

9.7.5 The Primary Judge will assess each circumstance, make a decision and signal that decision to the Transmission Judge.

9.7.6 It is the duty of all Gate Judges to consider and record their own view of every gate to which they have been assigned.

9.7.7 It is not the role of the Transmission Judge to overrule any decision of a Primary Judge, rather to record, display and forward that decision to the Scoring Office.

9.8 The **TVS/Video Judge** Coordinator is responsible for the complete setup and proper functioning of any TVS and video judge hardware and software. They guide and troubleshoot the video production and distribution to meet the TVS and the Video Judge requirements.

9.9 Video Judges carry the same responsibility as a Gate Judge and act as an additional resource to determine the correct decision for an athlete on any gate. The Video Judge can systematically view all athletes. Video judges may review any athlete on any gate, or sequence of gates. The Video Judge reports any discrepancy to the Chief Judge who may change the decision of a Gate Judge when the video demonstrates clear and conclusive evidence.

Supprimé: competitor

Supprimé: competitor

9.10 The Course Designers are responsible for the design of the course and ensure that the course is maintained in its original design during the competition. The Course Designers are responsible for the proper hanging of the gates and for the other relevant installations and must always be ready to make repairs or adjustments as necessary. The Course Designers are members of the Course Approval Committee.

9.11 The Pre Start Control position is not mandatory but may be required because of the configuration of the venue or the need to check equipment marks.

The Pre Start Control may advise the athlete as to when to proceed to the start pool. If required the Pre Start Control confirms that the athlete's equipment carries the marks applied at Equipment Control. If the athlete does not carry the appropriate marks the Pre Start control notifies the Start Judge and Chief Judge who make a decision on if the athlete may, or may not start the competition. Any time lost from the above process goes against the athlete.

10. INVITATIONS

[GR]

Invitations to an International Canoe Slalom Competition must be sent 2 months before the competition and must contain the following information:

- The date, place and level of competition (see Rule 2.3)
- A description of the course
- The approximate hour and order of the starts of the runs
- The events
- Details of the nature of the course and character of the water (difficulty rating)
- Safety measures
- The entry procedure
- The final date for entries
- The progression system and numbers
- Prizes and the conditions under which they are awarded
- In the event of an International Competition invitation for LEVEL 3 and LEVEL 4 competitions, the organisers must specify the maximum number of participants per event per National Federation.

11. ENTRIES

[GR]

11.1 Nominal entries for ICF competitions (LEVEL 1 to LEVEL 3):

11.1.1 Entries will only be accepted from National Federations which are current members of the ICF.

Supprimé: 11.1 A Federation according to the instructions given in the invitation must make each entry to an ICF or International competition.

11.1.2 An entry must contain:

13. ICF CANOE SLALOM RANKING SYSTEM

[TR]

13.1 The objective of the ICF Canoe Slalom Ranking is to establish a ranking system for athletes in Canoe Slalom.

13.2 ICF Canoe Slalom Ranking is an on-going system to rank all the athletes in each event.

13.3 The formula to calculate the points reflects the following principles:

- The quality of the starting field in the event
- The importance of the competition
- The quality of the result achieved by the athlete

13.4 The ICF Canoe Slalom Ranking is calculated from the best 5 results of the designated competitions in the last two years.

13.5 The list of the designated ICF CSL Ranking competitions for the forthcoming year is established by the CSLC and published by the ICF no later than the 1st October of the year before the competitions (see rules...).

13.6 The organiser must send the results of the competition in the required format to the ICF, within 2 days of the competition being completed, for the calculation of the ICF Canoe Slalom Ranking.

14. ICF CANOE SLALOM NATION RANKING

[TR]

14.1 The ICF nation ranking is established from the final release of the ICF canoe slalom ranking.

14.2 The list of the Nation ranking in each event for the forthcoming year is established by the CSLC and published by the ICF two weeks after the World Championships of the previous year.

20.1 Each Team Leader must receive, at least 5 hours before the beginning of the competition, written directions concerning the following points:

- A list of the start orders
- Detailed timetable
- Time that the course opens
- Starting time
- Position of the starting line
- Position of the finish line
- The interval between starts
- The signal used by the Start Judge to give the start, and that is employed by the Judges to clear the course (whistle)
- Place where the competition office/enquiry office and the Jury may be found
- The time and place for the inspection of equipment
- Manner in which the boats are to be transported from the finish back to the start, if appropriate
- Regulations concerning training
- Place for Anti-Doping Control (when required).

20.2 A meeting of the Team Leaders from each participating Federation must be held at an appropriate time before the start of the competition.

The following points should be discussed:

- Additional instructions to athletes
- Confirmation, changes and/or withdrawal of entries.

21. CANOE SLALOM EQUIPMENT

[TR]

21.1 The ICF will conduct homologation testing for canoe Slalom equipment based on commercially available products.

21.2 These include but are not restricted to timing and scoring, moveable obstacles, gates, poles and hanging system.

22. SAFETY MEASURES

[TR]

22.1 All boats must be unsinkable, and must be equipped at each end with a handle attached no more than 30 cm from the bow and from the stern.

22.1.1 The following are considered as handles: loops of rope, rope with handles, or a handle that is an integral part of the boat construction.

22.1.2 The handles must at all times permit easy insertion of an entire hand up to the base of the thumb to hold the boat.

22.1.3 The material used must be at least 6 mm in diameter, or a minimum cross-section of 2 x 10 mm.

22.1.4 Taping of the handles is not permitted.

22.2 Each **athlete** must wear a helmet with a strap fastened under the chin and a buoyancy jacket. Both must be in good working condition.

The structure, shape or composition of the buoyancy jacket/helmet must not be modified in any way.

The products must be from recognised and established manufacturers guaranteeing the quality of material and meeting industry standards.

22.2.1 A buoyancy jacket must comply with the current industry standard that is, ISO 12402-5 (Level 50) or any national standard that meets the same requirements and be ICF registered by 1 January in order to be authorised for use in Olympic Games and/or ICF level 1, 2 & 3 competitions in that year. At a competition the buoyancy jacket's uplift will be tested using a 6.12 Kg calibrated stainless steel weight or its equivalent in other metals. The buoyancy jacket manufacturer markings and identification must comply with the ISO standard (or equivalent national standard) to allow the control of equipment by ICF Officials. This applies to all sizes of buoyancy jacket regardless of body weight.

Testing process at ICF competitions:

1. The buoyancy jacket must be on the ICF equipment register.
2. The buoyancy jacket must not be modified in any way.

Supprimé: competitor

3. The buoyancy jacket must be ISO 12402-5 (Level 50) (or equivalent national standard) approved and carry the appropriate labeling.

4. The buoyancy jacket must float the 6.12kg calibrated stainless steel weight.

22.2.2 The helmet must comply with EN 1385 and be ICF registered by 1 January in order to be authorised for use in Olympic Games and/or ICF level 1, 2 & 3 competitions in that year.

Each helmet shall be marked in such a way that the following information is easily legible for the user, and is likely to remain legible throughout the life of the helmet to allow the control of the equipment by ICF Officials:

Testing process at ICF Competitions:

1. The helmet must be on the ICF equipment register.
2. The helmet must not be modified in any way.
3. The helmet must have clearly visible:
 - The number of the European Standard
 - The name or identification mark of the manufacturer
 - The date of manufacture
 - The designation “Helmet for canoeing and whitewater sports”

22.3 It is recommended that organisers spot check the buoyancy of the jackets and boats at finish.

22.4 In doubtful cases, buoyancy of the boat is checked. The boat must float level at the surface when filled with water.

22.5 Athletes must be able to free themselves immediately from their boat at all times.

Supprimé: 19.4 Competitor

22.6 In the event of non-observance of the safety rules, the Start Judge, and the Chief Judge each, according to their assigned duties, are responsible and may prohibit an athlete from starting.

23. COURSE

[TR]

23.1 The course must be entirely navigable throughout its length and provide the same conditions for right-handed and left-handed C1 and C2 athletes. The ideal course should include:

Supprimé: paddlers

- 1) Minimum one gate-combination, which offers the athlete several options
- 2) Constant direction changes and flowing movements using the technical difficulties of the water (eddies, waves and rapids).

Supprimé: competitor

23.2 The minimum length for a course is 150 m, the maximum length is 400 m measured from the start line to the finish line down the centre-line of the course. As a recommendation for the Course Designers, the course should be navigable for K1M in a time close to 95 seconds. At the end of the competition course, there should be sufficient warm up and cool down areas for the athletes. These areas are open for all categories that are competing and must not affect the start and finish area.

Supprimé: 200

Supprimé: competitor

23.3 The course may consist of natural and/or artificial obstacles.

The accredited teams have free access (no fee) to the course during official training times and the scheduled competition days.

23.4 The course must consist of a minimum of 18 gates and a maximum of 25 gates, of which 6 or 8 must be upstream gates.

23.4.1 The Start and Finish positions and their organisation must be agreed to by the Chief Judge prior to the beginning of official training.

23.4.2 The distance between the last gate and the finish line must be no less than 15 meters and must be no more than 25 meters.

23.4.3 The organisers must choose a course where a race can be run without annoyance or inconvenience to the **athletes**. The gates must be placed with correct presentation clearly indicated (by the colour of poles and the number board) and sufficient room be allowed to permit a correct negotiation and judgement of penalties without uncertainty.

Supprimé: competitor

23.5 If during the event the Chief Judge identifies that a significant change in water level has occurred that may be corrected, he/she may stop the competition until the original water conditions are restored.

23.6 If during the competition unusual circumstances alter the nature or design of the course, only the Chief Judge may authorise alteration to or change the position of a gate.

23.7 The Course Designers design and publish the course for the Semi-Final/Final course, which take into account the positions for judging used on the heats course. A semi-final/final course may be changed from the heats course provided the balance of the course is maintained. The Technical Organiser and the Chief Judge may offer the Course Designers their advice on the course design and the hanging of the course.

The organising Federation must provide the Course Designers with information on the possibility of and necessity for water control or any other information affecting water level. After assisting the Course Designers in carrying out their task in the most efficient and clearest possible way, the organising Federation prepares a map of the course exactly to scale of 1: 1000. A map of each course layout is published at the announced time, in a location that can be seen by all the participants.

24. APPROVAL OF THE COURSE

[TR]

24.1 Ideally the boats for the demonstration run should include one right-handed C1M, one left-handed C1M, one right-handed C1W, one left-handed C1W, two K1M, two K1W, and two C2 (front left and front right). In any case the maximum number of boats for each event should be no more than 2.

24.2 The demonstration run should include navigation of the course by each demonstrator in sections followed by a full-length run by each demonstrator.

24.3 The Chief Official, the Technical Organiser, the Chief Judge and the Course Designers form the Course Approval Committee which determine the navigability of the courses and approve the course(s) for the competition.

24.4 If the course is judged in some way unacceptable, (i.e. the course, or part of the course is unfair, dangerous or impossible to negotiate) the above persons named in **Rule 21.2** are empowered to make a decision to rectify the problem.

24.5 If more than half of the Course Approval Committee ask for a modification, the course must be modified. In these cases, the new course change proposals will be made by the Course Designers for reconsideration and approval.

24.6 After the approval, no further modification may be made.

24.7 The first start of the official training runs (when held) may not be held less than 20 minutes after the course is finally declared approved.

25. TRAINING

[TR]

At the organisers discretion, at level 4 competitions, a training run may be allowed on the completed course. Training runs are not mandatory.

26. START

[TR]

26.1 Starts should be directly upstream or downstream.

26.2 An assistant to the Start Judge may hold each boat at the starting position until the start.

26.3 The boat must be stationary at the start

26.4 In the team runs, all boats must be stationary. The boat in the start gate must activate the timing of the run. The boat can be either A, B, or C

26.5 In all cases the athletes must follow the Start Judge's positioning or special instructions.

Supprimé: competitor

27. START INTERVAL

[TR]

27.1 In individual events, starts are separated by at least forty-five seconds.

27.2 In the team events, starts are separated by at least ninety seconds.

28. FALSE START

[TR]

28.1 Only the Start Judge is qualified to determine that a false start has occurred and to recall the athlete by means of an appropriate signal.

Supprimé: competitor

28.2 The Start Judge determines if a second start is given and notifies the Chief Judge of his/her decision.

29. FINISH

[TR]

29.1 The finish line must be marked clearly on both sides of the course.

29.2 An athlete's run is complete when the finish line is broken by the athletes body. The athlete must not cross the finish line more than once or risk disqualification for that run (DSQ-R).

30. MARKING OF THE GATES

[TR]

Supprimé: ¶

30.1 The gates consist of two (2) suspended poles painted with green and white rings for downstream gates and red and white rings for upstream gates, with the bottom ring always white, each ring is 20 cm high. A black band of a minimum width of 2 cm and maximum width of 2.5 cm is placed around the base of each pole. The gate numbers will be displayed according to the CSLC template on the white ring, second from the bottom. Event Logos and/or advertising agreed with the CSLC may be displayed on any of the rings above the bottom four rings.

30.2 The width of a gate is 1.2 meters minimum to 4.0 meters maximum measured between the poles. Poles must be round and 1.6 to 2 m long by 3.5 to 5.0 cm in diameter, and of sufficient weight that motion caused by wind is not excessive.

30.3 The height of the poles above the water should be such that it provides fair and reasonable conditions for negotiation whilst simultaneously satisfying the aims of the Course Designers. As an indicator to the Course Designers and Chief Judge the pole height should be approximately 20cm above the surface of the water and should not be set in motion by any surge of water.

30.4 The pole adjusting system must enable easy adjustment for each pole on every gate.

30.5 Gates must be numbered in the order of negotiation.

30.6 The gate number panels must measure 30 cm x 30 cm. The numbers must be inscribed on both sides of the panels using written in black on a yellow or white background. Each number and letter must measure 20 cm in height and 2 cm in thickness. 32.4.6 The last team member failing to cross the finish line within fifteen (15) seconds of the first team member to finish.

32.4.7 Part of the head breaks the gate line (in C2, one or both **athletes**) in the correct direction, with or without part of the boat, unless correctly renegotiated before any subsequent gate is negotiated.

Supprimé: competitor

32.5 Undercutting of a gate by the **athlete** with any part of their body or equipment, except part of their head, without a touch is not penalised.

Supprimé: competitor

32.6 Repeated attempts at a gate without touching the poles is not penalised if part of the head of the **athlete(s)** has not broken the gate line in the wrong direction.

Supprimé: competitor

32.7 Fifty (50) penalty seconds is the maximum obtainable by one athlete on any one gate.

Supprimé: competitor

32.8 At all times, the benefit of any doubt must be given to the athlete.

33. SIGNALLING BY THE JUDGES

[TR]

33.1 Visible signalling discs or cards are normally used by the Transmission Judge to communicate the penalties to the spectators.

33.2 A yellow disc or card marked with figures 2, and red card or disc marked with figures 50. The figures must be black and marked on both sides.

33.3 Signalling is carried out according to the following rules:

33.3.1 Zero (0) penalty, no signal given.

33.3.2 Negotiation with penalty, a disc/card is held up steadily (with the figures 2 or 50) or on a section scoreboard according to the penalty seconds incurred.

34. CLEARING THE COURSE

[TR]

34.1 When an athlete is overtaken by another athlete, he/she must give way, if a Judge gives repeated blasts on a whistle.

Supprimé: competitor

Supprimé: competitor

34.2 The overtaking athlete must be attempting to negotiate the course properly. If the athlete is overtaking as a result of missing gates, then they must not hinder the athlete that they are approaching.

35. UPSIDE DOWN AND CAPSIZE

[TR]

35.1 The boat is considered upside down when the head of the **athlete** is entirely under water.

Supprimé: competitor

35.2 It is considered to be a capsize when the **athlete** (or an **athlete** in C2) has left the boat completely.

Supprimé: competitor

Supprimé: competitor

35.3 Eskimo roll is not considered to be a capsize. In team runs, members of the team may help each other to Eskimo roll without penalty.

36. TIMING

[TR]

36.1 The time of a run is measured from:

The time that the **athlete's** body or electronic device (on body or boat) breaks the start line to the time when the finish line is broken by the **athlete's** body or electronic device (in C2, the first body that crosses the line).

Supprimé: competitor

In teams racing the time is measured from the time when the first **athlete** breaks the start line to the time the last **athlete** breaks the finish line.

Supprimé: competitor

Supprimé: competitor

Supprimé: competitor

36.2 Timing of each run must be accurate to at least 1/100th of a second, and the results must be reported to the nearest 1/100th of a second.

(Example: running time of 1 minute, 30 and 5/100th seconds would be reported as 90.05 seconds)

37. CALCULATION AND POSTING OF RESULTS

37.1 The following formula is used to calculate the results:

best time run in seconds + penalty seconds = result

37.1.1 Sample for an individual score in each run

Running time:	2' 20'' .82	=	60 + 60 + 20.82	=	140.82	seconds
Penalty seconds:			2 + 2 + 50	=	54.00	seconds
Total:				=	194.82	seconds

Supprimé: !

37.1.2 Sample for Scoring of a Team in each run:
Time between the start of the first boat and the arrival of the last boat:

Running time:	$2'20''\text{.}82 = \frac{60}{60} + \frac{60}{60} + 20.82$	=	140.82	Seconds
Penalty seconds of first boat:		=	104.00	Seconds
Penalty seconds of second boat:		=	154.00	Seconds
Penalty seconds of third boat:		=	56.00	Seconds
Total:		=	454.82	Seconds

37.2 As soon as the results of a run for an athlete or team are known, the start number, the penalty-seconds, and the time should be posted in the designated place until the time for filing enquiries has elapsed.

Supprimé: competitor

37.3 The following notations will be used in reporting the results:

DNS	Did not start
DNF	Did not finish
DSQ-R	Disqualified for particular run
DQB	Disqualified from the competition

In case of DQB - no classification is recorded.

37.4 Athletes with normal results in, at least, 1 run, should be sorted normally.

37.5 Athletes/Teams receiving (DNF or DSQ-R or 1 DNS combined with DNF or DSQ-R in multiple runs) should be sorted by NOC code.

37.6 Athletes with only DNS result in multiple or single runs should not be ranked.

37.7 In the Semi final or Final phase of a competition, an athlete who receives a DNS will be ranked and will receive ICF ranking points from their previous phase completed.

Supprimé: In the Semifinal or Final phase of a competition, an athlete who receives a DNF or DSQ-R will be ranked and will receive the lowest ranking points in that phase.

37.8 In the Semi final or Final phase of a competition, where athletes receive a DNF, DSQ-R or DNS, they are listed and ranked in the following order DNF, DSQ-R then DNS. In the case that two athletes have the same code they will be ranked by their results in the previous phase.

37.9 In the results output that includes multiple runs, results should be shown just for the completed run.

37.10 For DQB boat(s) the boat(s) are eliminated from the whole competition, and will not be ranked. The results, which have already been archived from a phase when DQB subsequently occurs, will not be shown in the results or the race analysis of that particular phase. Results for phases, which the boat(s) completed before disqualification, will remain.

37.11 An athlete or team is given a DNF result in the case where an athlete crosses the finish line upside down or capsized.

40. PROTEST

[TR]

40.1 A protest against an athlete to compete in a race shall be advised to a member of the Chief Judge not later than one hour before the start of the race. A protest made later must conform to article 41.

40.2 A Team Leader may protest when there is obvious irregularity in the conduct of the competition. e.g. changing water level, object in the water, gate position change, overtaking, bad weather conditions.

40.3 A protest is considered only when an intention of protest is submitted within 5 minutes of the unofficial results of the event being posted.

40.4 The Team Leader advises the Enquiry Desk of their intention to file a protest.

40.5 The Team Leader must then submit the protest in writing using the appropriate form. It must be submitted no more than 20 minutes after the unofficial results are posted and signed by the Chief Judge.

40.6 The Chief Judge or Enquiry Desk will accept a protest from a Team Leader upon receipt of a deposit of 75 Euros or the equivalent in the currency of the country organising the competition. The deposit is returned if the protest is upheld. If the protest is not upheld, or the Team Leader withdraws the protest, the deposit is forfeited to the Organising Committee of the competition.

40.7 The Chief Judge evaluates the legitimacy of any protest. He/she may consult with the Judges involved and at their discretion, view any official television of video footage. The Chief Judge transmits their decision in writing to all directly affected including the Team Leader.

41. APPEAL TO THE JURY

[GR]

41.1 The Team Leader must make an appeal to the Jury in writing. The Appeal must be delivered to the Enquiry Desk.

41.2 A deposit of 75 Euros or the equivalent in the currency of the country organising the competition must accompany an appeal to the Jury. The deposit is returned if the appeal to the Jury is upheld. If the appeal to the Jury is not upheld, the deposit is given to the Organising Committee of the Competition.

41.3 An appeal to the Jury can be made when it appears that there is a contradiction with the rules of competition.

41.4 Matters of fact cannot be contested by an appeal to the Jury (see Rule 9.3).

41.5 An appeal to the Jury during the running of the competition must be submitted within 20 minutes of the time the result of a protest has been communicated. The appeal must be delivered to the Chair of the Jury in the Scoring Office or to the Enquiry Desk.

41.6 Appeals can be made to the Jury protesting the right of an athlete to participate in a competition if this protest has been given to the Competition Organiser at least an hour before the beginning of the competition, but no decision has been made on the subject.
