

Buoyancy aids for extreme kayak

To be validated for an ICF extreme kayak event during the 2022 season, a buoyancy aid :

- Must comply with the current industry standard ISO 12402-5 (Level 50) or any national standard that meets the same requirements
- The buoyant material must be located in the vest above the waist (16.3.1.g)
- Must meet all the requirements listed in the rules 16.3.1 of the Canoe Slalom rules 2022 except 16.3.1.d which refers to the listing of equipment on the ICF register

There will not be a specific register for 2022 Extreme Kayak Buoyancy Aids. The criteria listed above may be checked in the pre start area.
