23 START

[TR]

23.1 The start line shall be clearly marked, with the marks described to the competitors in the race instructions.

23.2 The start line should be long enough to allow all competitors to line up alongside each other. When this is not possible, seeded paddlers should be allowed places in the front row, ensuring equal representation from all federations present.

23.3 The start signal audible to all racers, may be a blast of a whistle or horn, a shot from a start gun or a shouted word "go". The start signal shall be described in the race instructions.

23.4 Competitors shall be at the start at the time specified in the racing programme. The start shall be given without reference to any absentees.

23.5 The start will be as fair as possible, allowing all competitors an equal chance. The type of start will be selected according to prevailing conditions and local customs. Starting procedures may be, but are not limited to those described below:

a) Beach Start

The starter will call the competitors to the water's edge. Competitors will line up, in an order determined by the draw holding their craft, in ankle to thigh deep water as instructed by the starter or his assistants.

When all competitors are aligned and the sea conditions are favourable, the start signal shall be given.

b) Le Mans Start

The boats are lined up on the shore in an order determined by the draw.

c) Stationary Water Start

The competitors shall position themselves so that the bows of the competing craft are behind the start line. The boats must be stationary and may be held at the stern if required.

d) Rolling Water Start

Where strong currents render a stationary start difficult, a rolling start may be used, the boats being allowed to drift or paddle slowly towards the start line with a view to crossing on the signal. The start line may be fixed or be between two boats that are moving, usually upwind.

e) Interval Start

Where a simultaneous start is impracticable or undesirable, an interval beach start, stationary water start or rolling water start (either in groups or individually) may be used. The order can be determined by a draw or by seeding. A list of competitors with their starting times shall be displayed on a notice board and / or issued to the team leaders at least one (1) hour before the start of competition.

23.6 In all cases paddlers shall be called to the water at least ten minutes before the scheduled start

23.7 The following procedures will apply for the respective starts:

a) Beach Start, Le mans and Stationary Water Start

The starter shall ensure all craft are stationary behind the starting line as appropriate. When the starter is satisfied that the competitors are aligned correctly and are stationary he or she shall call "Ready" followed by the start signal (a *shot, horn blast, whistle blast* or the word "Go").

b) Rolling Start

The competitors shall move towards the start line slowly, aligned with each other as best as possible. When the competitors are approximately 10 metres

from the start line, the command "*Ready*" shall be called. When the starter is satisfied that the craft are correctly aligned and that no competitor will obtain any undue advantage as a result of the start, he or she shall give the start signal (signal (a *shot, horn blast, whistle blast* or the word "*Go*").

c) False start (beach Le Mans or stationary water start)

If a competitor moves forward after the word "*Ready*" and before the start signal, he or she has made a false start.

A competitor who attempts to start before any instruction is deemed to have made an unfair start.

A competitor who attempts a false or unfair start will be warned.

A second warning will result in the imposition of a two minute penalty.

A third warning will result in the competitor's disqualification from the event.

A disqualified competitor must leave the water immediately.

d) False start (rolling start)

If a competitor commences paddling after the word "*Ready*" and before the start signal is given, he or she has made a false start. An immediate time penalty of two minutes shall be imposed upon the competitor making a false start.

23.8 Any penalty imposed under this rule shall be notified to the team Leader of the offending competitor by the Technical Director. Whenever possible, advice of any time penalty shall also be given to the offending competitor(s) at the first available opportunity.

23.9 Multi-stage races

Where a race is divided into several stages, the starts of the second and subsequent stages shall be carried out individually, or in groups as determined by the organiser, and advised to the team leaders and / or competitors as appropriate.

If carried out individually the competitors will leave the stage start in the order of arrival from the previous stage, and at the same intervals of time.

Competitors not completing a stage, for whatever reason, will not be allowed to start the following stage. Timing will be cumulative, and the winner being the competitor/crew having taken the shortest time over

the whole course, making due allowance for any time penalties awarded by the organisers. The restart of the second or subsequent days may utilise any of the initial or stage start methods described in this rule or otherwise as is local custom.

Marks shall be rounded as described in the race instructions.

25 GROUP RACING AND SLIPSTREAMING

25.1 When competitors are racing in a group, it is the duty of all the competitors in the group to keep clear of each other at all times. This rule applies to any manoeuvring within the group and while slipstreaming. Inadvertent contact between craft should be avoided.

25.2 The organisers may prohibit slipstreaming between competitors in different categories and / or classes. Notice of any limitations to slipstreaming should be published in the race instructions.

26 COLLISION OR DAMAGE

[TR]

26.1 The International Navigation rules will apply in full. In particular, note that it is every competitor's responsibility to avoid a collision, whether they have right of way or not and all action necessary shall be taken to avoid a collision.

28.5 In the event of capsizing during the race, a competitor may be helped by another contestant. A competitor will be disqualified only if he/she uses the safety devices set up by the organisation of the race or the assistance of another boat outside the racing committee.

28.6 A competitor suffering from a lower-body handicap may, by prior agreement from the Race Committee, receive assistance at a beach start or at a check point, from designated helpers, provided no advantage is received as a result of such assistance and provided the competitor leaves or is lifted from his or her craft before the helpers carry the boat.

28.7 No exchange or substitution of craft is permitted during a single stage race or during a stage of a multi stage race, even with other competitors from the same team. Craft may be substituted between stages in a multistage race if it can be shown that the original craft has been damaged beyond repair during a previous stage.
