

2022 ICF Canoe Polo World Championships, Saint-Omer (FRA)

Qualification System

I. EVENTS (4)

The competition programme of the 2022 ICF Canoe Polo World Championships (Saint-Omer – FRA) will consist of four events:

M	Men
W	Women
MU21	Men under 21
WU21	Women under 21

II. QUALIFICATION PLACES DISTRIBUTION

A. Number of teams per event

The number of qualification places available in the Qualification Competitions for the 2022 ICF Canoe Polo World Championships will be as follows:

Men	24
Women	20
Men under 21	20
Women under 21	12
Total team	76

B. Distribution of teams through the qualification pathway

The initial distribution of qualification places through the 2020 ICF Canoe Polo World Championships, the 2021 Continental Championships and the “wildcard” places:

EVENTS	2021 ICF CAP World Championships	2021 Continental Championships					Wildcard	TOTAL
		Africa	Americas	Asia	Europe	Oceania		
Men	16	1	1	1	1	1	3	24
Women	14	1	1	1	1	1	1	20
Men under 21	14	1	1	1	1	1	1	20
Women under 21	6	1	1	1	1	1	1	12

III. QUALIFICATION PATHWAY

A. The first qualification stage – 2021 ICF Canoe Polo World Championships, Rome (ITA)

- The highest placed teams in each event at the 2021 ICF Canoe Polo World Championships (Rome, ITA) will obtain a qualification place for their National Federation as follows:

Men	16
Women	14
Men under 21	14
Women under 21	6

- Each qualification place allocation is subject to the participation of the concerned National Federation at their respective 2021 Continental Championships in the concerned event.

B. The second qualification stage – 2021 Continental Canoe Polo Championships

- The highest placed team not yet qualified from the first qualification stage (see article III.A) in each event at the respective Continental Canoe Polo Championships competition will obtain qualification places for their National Federation as follows:

	Africa	Americas	Asia	Europe	Oceania
Men	1	1	1	1	1
Women	1	1	1	1	1
Men under 21	1	1	1	1	1
Women under 21	1	1	1	1	1

- If there is no eligible team participating in an event at the continental championships the qualification place reverts to be a wildcard (see article III.D).

C. Exceptional case: no Continental Championships organised without force majeure issue

- Where a continent has not planned to organise a 2021 Continental Championship, the highest ranked in each event from the 2020 ICF Canoe Polo World Championship not yet qualified will be used to determine which National Federation from that continent “provisionally obtain a qualification place” for the 2022 Canoe Polo World Championships.
- A “challenge” to this qualification place may be made by any National Federation from that Continent who advises that they desire to challenge the “provisionally qualified” team/s.
- This “challenge” must be made via the ICF Canoe Polo Committee.
- Where the ICF Canoe Polo Committee receive notice of a “challenge” they will notify the “provisionally qualified” National Federation from that continent that they must host a qualification tournament prior to 1st November 2021.
- This tournament must be held in a fair location, in the country of the “provisionally qualified” team, in which any National Federation from their continent can participate.

- The qualification tournament will be conducted in accordance with ICF Rules, and results must be sent within 7 days to the ICF Canoe Polo Committee.
- The continental qualification place will then be awarded to the best placed National Federation based on their result at the qualification tournament.
- The ICF will determine any issues of disagreement by the challenging National Federation in terms of agreement of location and dates of the qualification tournament.

IV. INVITATION AND CONFIRMATION OF QUALIFICATION PLACES

- An invitation to participate in the 2022 ICF Canoe Polo World Championships will be issued by 12th December 2021 to inform the respective National Federations of their allocated qualification places after the two stages of qualification.
- The National Federations will then have until 10th January 2022 to confirm in writing to the ICF Canoe Polo Technical Chair the acceptance of each qualification place.

V. REALLOCATION OF UNUSED QUALIFICATION PLACES

- Where no confirmation is received by the 10th January 2022, or where a National Federation does not accept a qualification place, this place will become an additional wildcard in that event.

VI. WITHDRAWING AFTER ACCEPTING A QUALIFICATION PLACE

- According to ICF Canoe Polo rules 13.4.5, National Federations withdrawing a team after accepting an entry are not eligible for the 2024 ICF Canoe Polo World Championships in that event.
- This place will become an additional wildcard in that event for the 2022 ICF Canoe Polo World Championships in that event.

VII. WILDCARD ALLOCATION

A. Process

- The ICF Canoe Polo Committee will allocate Wildcards in their sole discretion.
- The ICF Canoe Polo Committee will in the first instance allocate a Wildcard to the host National Federation.
- The ICF Canoe Polo Committee will in the second instance allocate a Wildcard to the next host National Federation of the World Championships, if they have not already obtained a qualification place in the event as long as they have participated in the previous year's continental championships.
- The ICF Canoe Polo Committee will then give consideration to teams who competed but who did not qualify at their continental championships in the year before the relevant world championship.

B. Wildcard invitation

- Initial wildcard invitations will be issued by the 1st February 2022 at the latest **and** entry must be confirmed in writing by the concerned National Federation by the 31st March 2022 at the latest.

VIII. FORCE MAJEURE

A. Issue with the 2021 ICF Canoe Polo World Championships

If the 2021 ICF Canoe Polo World Championships is not held due to force majeure, or if the ICF Executive Committee determines that there is not fair and equitable access to participation for most of the countries with the intention to compete, the highest placed teams in each event at the 2018 ICF Canoe Polo World Championships (Welland, CAN) will qualify **a qualification place for their continent** for the 2022 ICF Canoe Polo World Championships according to the figures defined at the article "Qualification Pathway" III.a.

These Continental qualification places will be allocated to the best ranked team(s) from each respective continental championships in 2021.

B. Issue with a 2021 Continental Championships

If a 2021 Continental Championships is not held due to force majeure, or if the ICF Executive Committee determines that there is not fair and equitable access to participation for all countries with the intention to compete, the highest placed teams in each event from the 2021 ICF Canoe Polo World Championships not yet qualified will be used to determine which National Federation from that continent obtains a qualification place according to the figures defined at the article "Qualification Pathway" III.b.

These Continental qualification places cannot be "challenged" by any other National Federation. The article "Qualification Pathway" III.c is not applicable in this particular case.

If the 2021 ICF Canoe Polo World Championships has also been cancelled, the 2018 ICF Canoe Polo World Championships results will be used as a reference for the allocation of qualification places.

IX. QUALIFICATION TIMELINE

Date	Milestone
5 th to 10 th October 2021	2020 ICF Canoe Polo World Championships, Rome, ITA
TBD	2021 African Continental Championships – TBC
TBD	2021 Pan-American Continental Championships – TBC
TBD	2021 Asian Continental Championships – Singapore (SGP)
