

Dear Cecilia

We finished our educational courses with Mrs Gabriela.

It was a great chance for me to learn more about my abilities also the weak points in my minds which can be a big step toward being better and also analyzing those who are working with which can lead to less misunderstandings and better cooperation in the future.

You know I am living in Asia, the largest and most human population that was the site of the world's oldest civilization, a major center of learning, art, literature and philosophy.

Also

This is a part of the world that you can experience a revolution a war and maximum economical and financial sanctions less than 50 years of your life,

The trouble for going up One step toward success for European nations is equal to trouble of 1000 steps for us.

Worse happenings that affect our sport world, inside of our country we try our best to encourage girls and boys to come to sport, find talents, empower coaches.. because we have less chance to send them abroad, Iranian athletes are subjected to a convoluted and unfair visa process. (recently one of our best slalom athletes lost her chance to be in Asian qualification in Thailand just because her visa didn't have sufficient support from the host country)

So we organize events to be the host of other countries to make the chance of collaboration.

We understand how much precious is what you give us as online courses and also we realize the situation of those who live in this part of the world the opportunity of having more knowledge and experiences through online courses we share it with our neighbor countries.

All these are going in the path of Olympic but not just a motto also in real .

I know the value of empowering women and i try more to bring more women with myself .

We will organize an online course for more than 30 women who are the vice-president of canoeing organizations in 30 provinces of different places of Iran with coach Gabriela to share our experiences and if you be with us it will be awesome.

Also in this course there was another Vice President from table tennis federation that we try to join with her and same program together.

Thank you for giving this chance and hope for making our world better place .

Best regards

Katayoon ashraf
