competition will be such that each team in each category should, where possible and on average, play nearly the same number of games as teams in the other categories. The competition system selected for a particular category determines the number of teams from each group that advance to any Intermediate Round and how many advance direct to the Final Round.

12.2 For the preliminary round, the teams entered in each category shall be divided into equal, or near equal size groups.

12.3 Which teams shall be allocated to which Preliminary Round Groups shall be determined in a manner:

12.4 Based on a ranking list provided by the ICF Canoe Polo Committee or regional organisation (where available), or proven relative strengths of teams;

12.5 Ensuring the stronger and weaker teams are evenly spread through the groups;

12.6 In a competition with more than one round, all teams in a group shall play each other at least once in a league system. At the completion of this round, the teams are ranked in each group according to their results. The top two (2) or more teams from each group shall progress to subsequent Rounds of Competition.

12.7 An Intermediate Round, is not required in all competitions. It will only be used when there are a large number of teams in a category relative to the number of games that can be allocated to the category. In the Intermediate Round teams that have qualified from the Preliminary Round may be divided into groups, each group playing a league or knockout system to determine progression to the final round.

12.8 In the final round teams play each other in a knockout system, as per the final series systems in the Appendix. Teams are progressively eliminated until the last two teams play each other in a Grand Final to decide the winner.

13. LEAGUE POINTS AND POSITIONS

13.4 Three (3) points are awarded for a win, one (1) point for a draw, and zero (0) points for a loss. Where a team is unable to play a game or forfeits a game they will be awarded no points and the score will be recorded as a 7-0 loss for the forfeiting team.

13.5 Where two or more teams have gained the same number of points, they shall be ranked in order according to the following procedures:

- (a) Goal difference;
- (b) Total number of Goals scored;
- (c) Results of game between the two teams within that group;
- (d) Play Off, if possible.

13.6 Goal difference: Overall Goals Scored minus Overall Goals Conceded.

13.7 If one team has had a game conceded to them by another team, and a further team on the same points have actually played this conceding team, then both of these results will be discounted for this differentiation.

14. ADVANCEMENT TO LATER ROUNDS

[TR]

60.1 If a player capsizes and leaves their kayak, the player may not take any further part in the play and must leave the playing area immediately, with all of their equipment. If a player who has capsized wishes to rejoin the game the player must do so according to the rules of entry to the field of play. No person may enter the playing area to assist a player with their equipment, and no-one may obstruct the referee while assisting a player. A team may be penalised during a game for any illegal outside assistance, or for any interference with the opposition that constitutes outside assistance. The referee to determine the severity of the sanction.

61. ENTRY TO THE PLAYING AREA, RE-ENTRY, SUBSTITUTION AND EXCHANGING EQUIPMENT

[TR]

61.2 Substitutes must wait in their own substitute's area.

61.3 Substitution is allowed at any time including during time outs. Exit and entry of players for substitution may be anywhere along the teams own goal line provided all of the player's kayak and equipment has left the playing area before the substitute may enter the playing area. A player leaving the playing area solely as part of the action of the game is not subject to the conditions for re-entry.

61.4 A capsized player who has not left the playing area at their goal line may be substituted not earlier than the next break in play. All of the capsized players equipment (for example kayak and paddle) must be removed from the playing area before a substitution is allowed.

61.5 Each player is permitted to leave the playing area and exchange any piece of equipment, at any time during the game, provided the equipment has been approved by the Scrutineer. The player concerned must collect equipment being exchanged from their substitute's area.

62. ILLEGAL SUBSTITUTION AND ENTRY TO THE PLAYING AREA

[TR]

62.1 Where more than the legally allowed number of players from a team are in the playing area at any one time the player(s) coming illegally into the playing area should be given a yellow card(s). If it is not clear which player(s) should exit the playing area then the team's captain must nominate a player(s). Infringement incurs a sanction. Signals 7 and 14 apply.

62.2 When a substitute places their paddle in the playing area to prevent a goal from being scored, a goal penalty shot is awarded. The offending player is penalised with a red card. Infringement incurs a sanction. Signals 16 and 7 apply

63. ILLEGAL USE OF THE PADDLE

[TR]

Signals 12 and 15 apply. The following are defined as illegal use of the paddle.

63.1 Contacting an opponent's person.

63.2 Playing, or attempting to play, the ball with a paddle when the ball is within arms reach of an opponent, and that opponent is attempting to play the ball with their hand.

63.3 Playing or attempting to play the ball with a paddle across the bow of an opponent's kayak, within arms reach of the opponent in a normal paddling position.

63.4 Placing a paddle within arms reach of an opponent who has the ball in their hand. A goalkeeper is excluded from this rule and is allowed to directly defend against a shot at goal as long as the paddle is not moved towards the opponent at the time of the shot and it does not result in significant contact with the opponent.

63.5 When a player, with their paddle, attempts to restrict an opponent using their paddle.

63.6 Playing an opponents paddle instead of the ball.

63.7 Throwing a paddle.

63.8 Any other use of a paddle that endangers a player.

64. ILLEGAL POSSESSION

[TR]

64.1 Signals 11 and 15 apply. A player is in possession of the ball when they have the ball in their hand or are in a position to reach the ball with their hand, the ball being on the water and not in the air. A player balancing the ball on their paddle will also be considered to be in possession.

64.2 A player must dispose of the ball within five (5) seconds of gaining possession, either by passing it to another player or by performing one throw causing the ball to travel by at least one metre measured horizontally from the point of release.

64.3 If a player shares possession with another player or the ball moves out of arms reach whilst being tackled, the five (5) seconds shall begin again once a player has regained possession.

64.4 A player who capsizes to the point of the whole of their body and head going under water is considered to have lost possession if they do not have the ball in their hand(s).

64.5 A player may not manoeuvre their kayak with their hands or paddle while the ball is resting on their spray deck, or tucked under their arm.

65. ILLEGAL HAND TACKLE

[TR]

Signals 19 and 15 apply. A Hand-Tackle is a player pushing an opponent with one (1) hand. The following hand-tackles are illegal:

65.1 Any hand-tackle where the tackled player does not have possession of the ball or is sharing possession of the ball with another player.

65.2 Any body contact other than one open hand to the opponents' back, upper arm or side.

65.3 Any hand-tackle, which endangers the tackled player.

66. ILLEGAL KAYAK TACKLE

[TR]

Signals 10 and 15 apply. A kayak-tackle is a player manoeuvring their kayak against an opponent's kayak in an attempt to gain possession of the ball. The following kayak-tackles are illegal.

66.1 Any kayak-tackle that results in significant contact between the tackler's kayak and the head or body of an opposing player, or endangering a player. The player's arm shall not be considered to be part of the body when any part of it is elevated away from the body.

66.2 Any deliberate kayak-tackle that results in significant or continuous contact with the opponent's spray deck or where the tackler continues to tackle into or over the spray deck. After a kayak tackle, when the ball is no longer in possession of either player, they may move off each others kayaks by using their hands in a controlled action.

66.3 A player in possession of the ball who fails to avoid significant contact between the bow of his kayak and the head or body of the opponent.

66.4 Any hard tackle, that results in significant contact to the side of the kayak, at an angle between eighty (80) and one hundred (100) degrees.

66.5 Tackling an opponent who is not within three (3) metres of the ball.

66.6 Tackling an opponent when the tackler is not competing for the ball.

67. ILLEGAL JOSTLE

[TR]

67.1 Signals 9 and 15 apply. A jostle is a player manoeuvring their kayak against an opponent's kayak between the six (6) metre line and the goal line, at the attacking end of the field, to gain a position. The following jostling is illegal.

67.2 When a player is stationary or attempting to maintain a position and their body is moved by more than half a metre by sustained contact from an opponent's kayak.

67.3 When the contact to the opponent's kayak would be defined as an illegal kayak tackle under any section of rule 66.

67.4 When the body of the jostled player is behind the goal line.

68. ILLEGAL OBSTRUCTION

[TR]

Signals 9 and 15 apply. The following obstruction is illegal:

68.1 A player actively or deliberately impeding the progress of an opponent when neither player is within three (3) metres of the ball except where the players are jostling for position at the attacking end of the field as covered in rule 67. Note: A player is considered to be actively impeding the progress of an opponent when their kayak is moving or they are attempting active paddle strokes.

68.2 A player who is not competing for the ball who actively impedes the progress of an opponent who is competing for the ball on the water and not in the air.

69. ILLEGAL HOLDING

[TR]

Signals 19 and 15 apply. The following holding is illegal:

69.1 A player gaining support or propulsion by placing their hand, arm, body or paddle on an opponent's kayak, or holding the opposing player or their equipment.

69.2 A player using for propulsion or support, or moving out of place, any playing area equipment e.g. boundary markers, goal supports, or any surrounding object.

69.3 A player using their paddle to lift, pull or hold an opponents kayak while jostling for position in the six metre area, or attempting a kayak or hand tackle.

69.4 A player fending off an opponents attempted hand or kayak tackle with their hand or forearm, or with the movement of the elbow towards their opponent.

69.5 A player using a forceful action with one or both hands that results in significant contact with the

opponent's arm, or with the ball that is still in contact with the opponent's hand.

70. UNSPORTING BEHAVIOUR

[TR]

Signal 17 and 18 with appropriate card applies. The following is defined as unsporting behaviour:

70.1 Any infringement committed by a player during a break in play.

70.2 Hindering another player's attempt at righting themselves after capsizing. A player who is upside down must be allowed to get their head and both shoulders above the water before an opponent is allowed to attempt another tackle.

70.3 Interference with the equipment of an opponent. Such as holding or moving another player's paddle out of their reach, or deliberately preventing the player from regaining possession of the paddle.

70.4 Use of deliberate delaying tactics, such as throwing the ball away, or deliberately obstructing the opposition, to delay a quick restart after an infringement or goal. When a team is penalised, any player on that team who has possession of the ball must immediately place the ball on the water and not impede or delay the opposition in any way from taking a quick restart.

70.5 Players showing dissent.

70.6 Retaliation.

70.7 Foul or abusive language.

70.8 Other unsporting behaviour to a player, referee or other official or behaviour considered detrimental to the game, at the discretion of the referee.

70.9 Bouncing the ball out of play off an opponent's kayak to gain advantage.

71. DEFENCE OF GOAL

[TR]

71.1 The one defending player most directly under the goal, in order to defend the goal with the paddle is considered to be the goalkeeper at that time. The

goalkeeper's body must be facing into the playing area and attempting to maintain a position within one metre of the centre of the goal line. If two or more players are directly under the goal, the player most directly under the goal is considered the goalkeeper at that time.

71.2 If the goalkeeper is not in possession of the ball and is moved or unbalanced by contact from an opposing player, then that player has committed an illegal tackle. Infringement incurs a sanction. Signals 10 and 15 apply.

71.3 If an attacker moves the goalkeeper by pushing a defender into the goalkeeper, where none of the defenders have possession of the ball, the attacker shall be penalised. If the defender has an opportunity to avoid contact with the goalkeeper after being pushed, but does not, the attacker will not be penalised.

71.4 If a defender pushes the attacker onto the goalkeeper, then the attacker should not be penalised. If the attacker has an opportunity to avoid contact with the goalkeeper after being pushed, but does not, the attacker will be penalised.

71.5 If an attacker, in possession of the ball, whose original direction or speed would not have led to contact with the goalkeeper is pushed onto the goalkeeper by a defender, the attacker will not be penalised.

71.6 A goalkeeper who is not in possession of the ball, but is attempting for the ball on the water, can be tackled like any other player. If the goalkeeper does not gain possession they will not regain goalkeeper status until the attacker has shot or passed the ball. After the attacker loses possession of the ball, the attacker must not actively impede the goalkeeper's attempt to regain or maintain their position.

71.7 Within the six (6) metre area, an attacker must not actively prevent a defender from taking the position as goalkeeper. A defender will be allowed to push an attacker with the kayak, in order to take the position of goalkeeper without penalty, unless dangerous play is used.

71.8 As soon as a team has control of the ball they can no longer be considered to be defending and thus cannot have a player defined as a goalkeeper.

72. REFEREE'S BALL

[TR]

72.1 A referee's ball will be declared when two or more players of opposing teams have one or more hands firmly on the ball, so that the players share possession of the ball for five (5) seconds. If initial contact is made directly with the ball illegal holding will only apply if either player uses the opposition for support.

72.2 If the referee needs to stop the game, not during a break in play and where neither team is at fault (e.g. referee error, faulty goals, injury) and the referee cannot determine who had possession at the time of the whistle, the referee will restart the game with a referee's ball.

72.3 A referees ball will be taken at the nearest point on the sideline to the incident. Where a referee's ball is awarded for an incident that occurs between the six (6) metre line and the goal line, the referee's ball will be held at the nearest six (6) metre line. Signal 8 and Time-out applies.

72.4 Two opposing players will line up at right angles to the sideline, on the side nearest their own goal line, near to the sideline where the situation occurred, one metre apart facing the referee. They will place their paddles on the water, but not between their kayaks and their hands on the deck of the kayak or on their paddle.

72.5 All other players must be at least three (3) metres away from the point between the two players participating in the referees ball.

72.6 The referee will throw the ball on the water between the players and blow the whistle to restart play. Both players must make an attempt for the ball with their hands as soon as it touches the water. The players must not play the ball before it hits the water. Infringement incurs a sanction. Signals 11 and 15 apply.

73. ADVANTAGE

[TR]

73.1 The referees can play advantage when an infringement occurs as long as neither has blown their whistle. The referees should play advantage if the team that was infringed upon is more benefited by play

continuing. When playing advantage, the referees should recognise the illegal play by signalling and calling 'play on'. Signals 13 and 14 apply.

73.2 The referee can penalise any player who causes an infringement for which advantage is played at the next break in play with a green, yellow or red card.

73.3 When playing advantage, the next pass or shot should be completed and if there is no clear advantage, the original infringement should be called and appropriate sanction(s) and signals given. The referee is to indicate where the sanction should be taken.

74. SANCTIONS

[TR]

The referee can impose any combination of the following sanctions for illegal-play depending on the severity and/or frequency of offences being penalised. The sanctions available to the referees are Free Throws, Free Shots, Goal Penalty Shots, Warnings, Yellow Card Send Off and Red Card Send Off. The following definitions should be used when determining which sanction to impose:

- a) Deliberate Foul: a foul where no effort was made to avoid the illegal play.
- b) Dangerous Foul: is significant contact with the opponent's arm, head or body that may result in personal injury and is illegal.
- c) Significant contact: any hard contact that may result in equipment damage or personal injury.
- d) The act of passing or shooting: begins when a player has the ball in their hand, or balancing on their paddle, and is clearly attempting to pass the ball to a team mate, or shoot at goal.
- e) A Near Certain Goal: The referee must be certain that a goal was the most likely end result if play had continued.
- f) Control of the ball: A player is considered to have control of the ball if that player is in possession of the ball, or is the nearest player to the ball and is within 3 metres of the ball on the water.
- g) Team Possession: a team is considered to have team possession and therefore be the attacking team if any member of that team has possession or control of the ball.

74.1 Goal-penalty-shot. Signal 16 and time out applies.

74.1.1. Inside the six (6) metre area, a goal-penalty-shot will be awarded for any deliberate or dangerous foul on a player in the act of shooting.

74.3.1 A free throw will be awarded for any ball out of play, or when a goal penalty shot or free shot has not been awarded.

74.3.2 A free throw must not be a direct shot at goal. Infringement incurs a sanction and the opposition is awarded a free throw. Signals 11 and 14 apply. Side line throws, goal line throws, corner throws and centre restarts are considered to be free throws and may not be direct at goal.

74.4 Red Card: A player, team coach or team official is sent off for the rest of the game and may not be replaced. Signal 17 with Red card applies.

74.4.1 A red card will be awarded to a player receiving a second yellow card for any reason or where a yellow card is disputed.

74.4.2 A red card will be awarded to a Team Coach or Team Official who leaves the coaches area after a green card warning has been given to any official from that team for leaving the coaches area, or when a green card is disputed or has not had the desired effect of causing the person to control their behaviour or attitude. A Team Coach or Team Official receiving a red card must immediately leave the Competition area and cannot be replaced. The game will not continue until they have left the competition area and they may take no further part in the game. If the individual refuses to leave the competition area the referees should abandon the game and refer the matter to the Competition Committee.

74.4.3 A red card should be awarded if a personal attack on a player occurs.

74.4.4 A red card should be awarded for a deliberate or dangerous foul, that in the referee's opinion is of major influence to the game, irrespective of any other sanction awarded.

74.4.5 A player, team coach or team official receiving a red card during a competition will automatically receive a one game suspension, and be unable to take part in the next game in that competition.

74.4.6 A player, team coach or team official receiving a red card during a competition may be referred to the competition committee for further disciplinary action by either referee if they feel further action or sanctions are necessary.

74.5 Yellow Card: A player is sent off for two (2) minutes and must not be replaced. Timing of the send off is suspended for periods of time out or between periods of play. Signal 17 with Yellow card applies.

74.5.1 A yellow card will be awarded to a player receiving an individual green card for any reason which results in that player having a total of 3 green card including team warnings.

74.5.2 A yellow card will be awarded for a deliberate or dangerous foul on a player that prevents the scoring of a near certain goal, except where the referee feels that the awarding of a goal penalty shot is sufficient sanction.

74.5.3 A yellow card will be awarded for a foul that the referee considers both deliberate and dangerous unless a red card is awarded.

74.5.4 A yellow card will be awarded for a deliberate or dangerous foul that is repeated, or after a green card or team warning has already been awarded to that player or their team for the same offence.

74.5.5 A yellow card will be awarded for repeated and continuous disputing of referee's decisions.

74.5.6 A yellow card will be awarded for foul or abusive language directed at an opponent or official.

74.5.7 Players sent off must obey the rules of entry to the playing area for re-entry at the completion of the send-off period.

74.6 Green Card Warning: designed to warn a player, team coach or team official to control their play **or** behaviour or risk a yellow card, or red card send off if the infringement(s) continue. Signal 17 with green card applies.

74.6.1 A green card warning will be awarded for any deliberate or dangerous foul except where a yellow or red card is awarded.

74.6.2 A green card will be awarded to a player, team coach or team official for unnecessary verbal communication directed at a referee, official or opponent, or any other unsporting behaviour except where a yellow or red card is awarded.

74.6.3 A green card will be awarded to a team coach or team official if they leave the coaches area during play. The green card warning will apply to all coaches and officials from that team for the duration of that game. The green card warning will be issued either immediately or at the next break in play at the discretion of the referee.

74.7 Team Warning.

Signal 17 with a green card applies. A team warning occurs when a referee awards a green card to all players on a team.

74.7.1 A team warning will be awarded to a team by either referee if more than 1 player on the same team are guilty of the same deliberate or dangerous foul.

74.7.2 A team warning will be awarded to a team by either referee if more than 1 player on the same team are guilty of unnecessary verbal communication directed at a referee, official or opponent, or any other unsporting behaviour that is repeated by more than 1 player of the same team.

74.7.3 After a team warning has been given for a particular infringement, a yellow card will be awarded to any player of that team for any subsequent deliberate or dangerous infringement for the same offence.

75. TAKING THROWS

[TR]

75.1 The player taking any goal line throw, corner throw, sideline throw, free throw or free shot must be in the correct position and stationary before taking the throw. The player must clearly hold the ball stationary for a moment above shoulder level to indicate they are taking the throw. The players initial throw must travel one metre measured horizontally from point of release or change possession to another player of the same team. Infringement incurs a sanction with the opposing team being awarded possession of the ball. Signals 11 and 14 apply.

75.2 When taking any free throw, or free shot, the player taking the free throw or free shot must be allowed to take up their position to take the throw. No opponent may prevent the player taking up their position or contact the player or their equipment, or deliberately prevent or restrict the movement of the player taking the throw until the ball is back in play. The only exception will be for Free Shots awarded within 2 metres of the goal: Defenders (including the goal keeper) will be allowed to block the free shot after release, but before it has travelled 1 metre from the point of release, with a stationary paddle or stationary hand(s). All defender's

paddles and hands must be kept out of arms reach and any movement towards the player taking the free shot by either a paddle or hand(s), or blocking the ball before it has been released will be deemed a deliberate action and result in a goal penalty shot being awarded.

75.4 The player must throw the ball within five (5) seconds of being in possession and in a position to take the throw. The five seconds for the restart applies from when any member of the team is in a position to pick up the ball and take the throw. Any dropping or fumbling of the ball will not be considered, provided the initial throw is taken within the five seconds. Infringement incurs a sanction with the opposing team awarded possession of the ball. Signals 11 and 14 applies.

75.5 Following an infringement that led to the awarding of a free shot or free throw, the referee will indicate where the free shot or free throw will be taken. The free shot or free throw will be taken: either where the infringement occurred, or where the ball was at the time of the infringement, or where the ball landed if it was in flight at the time of the infringement, whichever most advantages the team receiving the sanction.

All other players must be positioned with their bodies in the other half of the playing area until play restarts.

77.2 If a goal penalty-shot has been awarded prior to the signal for completion of play, the goal penalty-shot must be taken before play is to be considered completed. In this situation, the ball shall after it has been thrown immediately be dead if it hits the water or the goal frame and comes back into the playing area.

78. OVERTIME

[TR]

78.1 Overtime shall consist of consecutive periods of five (5) minutes each; with the team scoring the first goal deemed the winner. There shall be a three (3) minute break before overtime commences and a one (1) minute break between periods, with a change of ends.

79. PROTEST TO THE COMPETITION COMMITTEE

[GR]

79.1 A delegation-leader or team-leader may lodge a protest in accordance with these rules. Such protests must be made to, and determined by, the Competition Committee. 79.2 Objections about scrutineering decisions may be made verbally without fee by a delegation-leader or team-leader to a Scrutineer or the Chief Scrutineer before or during a game in which the equipment is involved. If the objection is made before the game, the equipment may be re-scrutinised. If a scrutineering objection is made during a game the Scrutineer will make a decision as to whether the Referee should call the player in to have their equipment inspected.

79.3 All decisions of the referees on questions of fact shall be final and their interpretation of the rules shall be obeyed throughout the game. No protest can be made in relation to an interpretive decision of a referee.

79.4 Any protest must be made:

79.5 The Team leader (or his/her representative) must make the notice of protest to the Chief Official in writing setting out:

79.5.1 The incident in question;

79.5.2 The grounds upon which the protest is made; and

79.5.3 The reasons or circumstances supporting the alleged grounds of protest.

79.6 Nothing in the rules prevents the withdrawal of a protest by a Team Leader at any time by writing to the Chief Official.

79.7 On receipt of a protest in accordance with the Rules, the Chief Official must immediately forward the notice of protest and any accompanying documents to the Competition Committee.

79.8 The Competition Committee shall, as soon as practical after receiving a protest, investigate and consider the protest and shall within ten (10) minutes of receiving such notice determine whether:

79.8.1 The protest should be dismissed, because in its determination, the protest is trifling in nature or has no merit; or

79.8.2 The protest warrants further review and determination in accordance with these rules.

79.9 If the Competition Committee determines the matter warrants further review in accordance with these rules, it shall as soon as practicable, having regard to the proximity of relevant events, call a meeting of the Competition Committee.

79.10 When a protest is made against a player or a team, the team-leader of the player or team in

question shall be presented with a copy of the protest to read.

79.11 The Competition Committee may conduct a meeting (or any adjournment it permits) in such manner as it sees fit, but shall:

79.11.1 Give to the protesting Team Leader the opportunity to be heard;

79.11.2 Give due consideration to any statement given by the protesting Team Leader and any relevant official;

79.11.3 Allow the protesting Team Leader to be present along with their representative;

79.11.5 Give the Team Leader (or their representatives) of any team that may be directly affected by the protest every opportunity to be heard.

79.12 Following consideration of all relevant and available information, the Competition Committee shall arrive at a finding. A decision of the Competition Committee shall be by a majority decision. The Competition Committee may:

79.12.1 Disqualify a team, or exclude them from further competition;

79.12.2 Where eligibility protest against a team is upheld, disqualify the team from the competition. When a team is disqualified, insofar as is possible, the results of all previous games the team has played in the competition will be nullified or awarded to their opponents, as appropriate. Any awards of medals, trophies or placing will be rescinded.

79.12.3 Take such other action as it thinks fit and in each case shall give written reasons for its decision.

79.13 The Chief Official shall then immediately notify the protesting Team Leader and all other relevant people of the Competition Committee's decision in writing.

79.14 A protest made later - within 30 days from the date when the game in question was held - is only

permitted if the officials of the association making the protest can prove that the facts on which the protest is based came to their attention following the conclusion of the competition. A late protest shall be referred to the Chairperson of the ICF Canoe Polo Committee and accompanied by a fee of 25 Euros that will be refunded if the protest is upheld.

APPENDIX II - SCRUTINEERING

101. ICF CANOE POLO KAYAK MANUFACTURERS SCHEME

1.1. - After January 1st 2015 - All new composite canoe polo kayaks manufactured by registered ICF Canoe Polo Kayak manufacturers must have an ICF Canoe Polo Manufacturers Label permanently fixed into the inside surface of the kayak in plain view in front of the seat that cannot be removed or tampered with in any way. These labels can only be purchased by manufacturers registered with the ICF Canoe Polo Manufacturers Scheme.

1.2. - After January 1st 2015 - All canoe polo kayaks constructed by registered ICF Canoe Polo Kayak manufacturers must conform to all of these ICF Canoe Polo Kayaks Specifications. Any breaches of these specifications will result in the immediate suspension of that manufacturers license for a period of two (2) years. During this time, NO kayaks built by that manufacturer will be permitted in ICF Canoe Polo sanctioned events such as World Championships or World Games.

1.3. - After January 1st 2015 - All canoe polo kayaks that are used in ICF sanctioned events including World Championships and World Games, that do not have a visible ICF Canoe Polo Kayak Manufacturers Label will be individually tested with the appropriate gauges to ensure they comply with these new specifications. Any kayaks that fail these tests will not pass scrutineering and will not be used in ICF Canoe Polo events.

1.4. - After January 1st 2016 - All Canoe Polo Kayaks used in ICF sanctioned events including World Championships and World Games, must be constructed by manufacturers registered with the ICF Canoe Polo Kayak Manufacturers Scheme. There will be a list of Registered manufacturers in the Canoe Polo section of the ICF Website.

1.5. - After January 1st 2021 - Only kayaks with an ICF Canoe Polo Kayaks Manufacturers Label will be able to be used at ICF World Championships or World Games. (This does not prevent the use of older kayaks without a

label at a lower level within domestic competitions see note below.)

1.6. - National Federations may have their own local rules regarding the use of older designs or kayaks including those without an ICF Canoe Polo Manufacturers label. Please consult your National Federation for details.

Note: The ICF Canoe Polo Committee recognizes the lifespan of a canoe polo kayak can be many years- even at the highest level. These rules effectively mean that any existing kayak built prior to January 1st 2015 that does not have an ICF Canoe Polo Manufacturers Label, will not be able to be used in the 2022 Canoe Polo World Championships.

2.0 Kayak-Safety requirements

2.1. - All profiles and curves must stay within these rules and will be scrutineered with official ICF Canoe Polo gauges.

2.2. - For all composite and plastic kayaks, all metal bolts, screws or other fixing devices should have low profile parts on the surface, be smooth to the touch and be recessed wherever possible.

2.3. - Carry handles of any type are not permitted.

2.4. - Concave sections are allowable throughout the kayak so long as they do not present themselves as a dangerous feature and comply with the minimum radius.

2.5. - The kayak must have soft, shock absorbing material (padding) firmly affixed to the front and rear impact zones sufficient to prevent injury to players and to reduce damage to equipment. This padding must comply with the detailed specifications described in section 103.

2.6. - The kayak must have sufficient buoyancy to keep it afloat, so that some part breaks the surface of the water, even when it is completely full of water.

2.7. - The weight, including padding, may not be less than 7kg.

3.0. Kayak Dimensions, Measurements and Gauges

3.1. - All measurements will be carried out on a completed kayak with padding in place.

3.2. - Length: A kayak with integrated padding attached Maximum 3000mm.

3.3. - Length: A kayak with non-integrated padding attached Maximum 3100mm. (A kayak with non-integrated padding measured with no padding attached Maximum 3000mm).

3.4. - Width: Maximum 650mm.

4.0 Kayak - Edge

4.1. - The edge is the line around the kayak (not necessarily the join or gunwale line) where the side or end meets the vertical tangent. References to the top, upper, lower or bottom of a kayak are relative to this edge.

4.2. - The edge of the kayak must be of sufficient radius so as not to cause injury to a player on impact.

4.3. - In profile the minimum radius of curvature for the edge in each section is detailed in the following sections.

5.0. Kayak - Shape in Plan

5.1. - In plan the minimum radius of convex curvature for the edge is 100mm throughout the edge of the kayak. Gauge 1, detail G

5.2. - In both, the front and rear impact zones, a minimum width of 200mm must be reached within the first 100 mm of the kayak.

5.3.1 - For kayaks with integrated padding the first 100mm is measured with padding in place. Gauge 1, detail H

5.3.2 - For kayaks with non-integrated padding the first 100mm is measured from the back edge of the padding where it attaches to the kayak. Gauge 1, detail I

Section AA' to BB' - Front Impact Zone - measured to the point 100mm down the length of the kayak 100 mm minimum radius at any point on B-A-B'

Section BB' to CC' - Front Section -

Section CC' to DD' - Cockpit Section -

Section DD' to EE' - Rear Section -

Section EE' to FF' - Rear Impact Zone - measured to the point 100mm up the length of the kayak 100mm minimum radius at any point on E-F-E'

5.0. Kayak - Top and Bottom surface

5.1. - The top and bottom surfaces (excluding those parts of the cockpit covered by a spray deck) must be smooth so as not to cause injury to a player.

5.2. - Section AA' to BB' - Front Impact zone: The kayak (with non-integrated padding) will meet a minimum thickness of 55mm with 30mm of the edge of the kayak. If the kayak has non-integrated padding attached, the 30mm will be measured from the rear of the padding where it attaches to the kayak. The minimum

radius of convex curvature allowed above the edge of the front impact zone is 20mm. Gauge 2, detail K and L

If a kayak has integrated padding - the padding must comply with separate minimum specifications for the Front Impact Zone AA'-BB' see section 103.3 Integrated Padding

5.3. - Section BB' to FF' - For the entire edge the kayak will meet a minimum thickness of 50mm with 30mm of the edge of the kayak. Gauge 3, detail M

5.4. - Section AA' to FF' - For the entire bottom surface of the kayak below the edge, and across the edge itself the minimum radius of convex curvature allowed is 20mm. Gauge 2, 3 or 5, detail L

5.5. - Section BB' to FF' - For the entire top surface of the kayak in profile above the edge once the minimum thickness has been reached, the minimum radius of convex curvature allowed is 5mm. Gauge 7, detail T

5.6. - Recesses in the hull or deck for the purpose of hiding bolt or screw heads etc. are to be permitted. Recesses should be safer than a projecting fixing device in order to be legal. Where recesses are provided to improve safety by eliminating projecting fixing devices, the 5mm radius shall be relaxed as far as it would cover the radius of any transition curve between the deck and the side surfaces of any such recess.

6. Kayak - Depth

6.1. - The depth at the cockpit must be sufficient to provide some protection from impact for the player.

6.2. - Throughout the length of the cockpit section of the kayak (from CC' to DD'), on each side of the cockpit, the kayak must be a minimum of 140 mm deep, as seen in profile, not including the cockpit edge (rim).

102. KAYAK GAUGES

102.1. - Only official ICF Canoe Polo gauges are to be used to test compliance with these specifications. The gauges will be fabricated from sheet aluminium or stainless steel and precisely engineered, according ISO 2769-mH, by an approved ICF supplier and will be stamped with the ICF Logo, registration number and date of manufacture.

The gauges to use for the measuring of the different sections are:

102.2. -Gauge 1, Impact Zone AA' to BB'' and EE' to FF'

Impact zone gauge, 100 mm radius, must be used to measure in plan sections AA' to BB' (front) and EE' to FF' (back). The kayak with padding in place must meet a minimum width in plan of 200mm within 100mm of the end of the kayak.

102.3. - Gauge 2, Front Impact Thickness Zone AA' to BB' (not used on integrated padding)

Impact Zone thickness - 55mm thickness at 30mm depth, must be used leveled to measure the edge thickness of the kayak.

102.4. - Gauge 3, Edge Thickness Zone BB' to CC' and DD' to FF' (includes rear integrated padding)

Edge Thickness gauge, 50mm thickness at 30mm depth, must be used leveled to measure the edge thickness of the kayak.

102.5. - Radius for whole bottom surface and across the edge AA' to FF'

Gauge 2, 3 or 5, detail L, 20mm radius, used to measure the whole surface of the kayak below the edge, and the edge itself. To gauge the radius of curvature, the radius portion of the appropriate gauge, must be applied perpendicular to the surface being tested. If both points X and X' (see below) touch the surface at the same time without the rest of the kayak the test is passed.

102.6.- Radius for whole upper surface zone BB' to FF'

Gauge 7, detail T, 5mm radius, used to measure the whole surface of the kayak above the edge once a thickness of 50mm (Gauge 3, detail M) has been reached except the cockpit area CC' to DD'.

103. PADDING

103.1 – Padding Material

- a) The padding must be made from a soft, shock absorbing homogeneous material (e.g.: foam, soft rubber). If it relies on a composite construction for its minimum thickness and shock absorbing property, then the essential shock absorbing property of the padding must not be lost under compression. The characteristics should be measured at the temperatures that will prevail during the competition.
 - b) The padding must be a minimum of 30mm thick (when uncompressed) – more is recommended to allow for shrinkage and compression over time.
- Gauge 4 – needle

- c) The 30mm thickness must be reached on the horizontal centerline of the padding in profile. It may be reduced to not less than 20mm thickness at a width of 25mm either side of the edge in profile.
- d) The padding must be compressible (by a scrutineer's or player's thumb) by at least 10mm. The padding must not be compressible to less than 10mm thickness. The thickness and compression are measured horizontal and vertical to the surface of the padding in plan.
- e) The padding must be firmly attached to cover the edges of the front and rear impact zones at the horizontal centerline.
- f) The padding must extend at least 100mm from each end of the kayak measured in plan. Gauge 1, detail H or I

103.2 - Attachment

- a) The padding must be attached firmly to the end of the kayak to ensure there is no possibility of the padding either falling off or moving out of position

during the course of a competition.

- b) The padding must be attached in a way that the edges and ends are not liable to catch on players or equipment.
- c) If rivets or bolts (or similar) are used to attach the padding, they must be recessed at least 20mm into the padding from the outer most part.

103.3 - Integrated Padding

- a) For a kayak with integrated padding, the padding must comply with the following minimum specifications.
 - aa. For the Front impact zone the padding must be a minimum 60mm high in profile and extend at least 100mm from the ends measured in plan. Gauge 5, detail N; Gauge 1, detail H
 - bb. The Front Impact zone padding must be a minimum radius of at least 10mm over the whole surface of the padding. Gauge 5, detail O
 - cc. For the Rear impact zone the padding must be a minimum 50mm high in profile and extend at least 100mm from the ends measured in plan. Gauge 3, detail M; Gauge 1, detail H
 - dd. The rear impact zone padding must be a minimum radius of at least 5mm over the whole surface of the padding. Gauge 7, detail T

Gauge 5 Front Impact Zone (Integrated Padding only)
AA' to BB'

- b) The shape of the kayak beneath the integrated padding is not important while the padding is in place as long as the whole kayak meets the specifications outlined in this appendix sections 101 and 102.
- c) In general the padding profile must follow the profile of the kayak ends and the integrated padding must be appropriate for that design of kayak.
- d) For a kayak with integrated padding there should be no (minimal < 5mm) gap between the start/edge of the padding and where it joins the kayaks. Any part of the kayak that meets the padding must have a minimum of 5mm radii. This 5mm gap can be measured with Gauge 7

103.4 - Non-Integrated Padding

- a) Kayaks with non-integrated padding must comply with the kayak specifications in this appendix 101 and 102 if the padding is removed.
- b) The padding must be comply with the padding specifications described above in 103.1 and 103.2
- c) For kayaks with non-integrated padding - the padding must be positioned on the edge (see definition of edge in kayak specifications) to cover at least 15mm above and below the edge.
- d) The non-integrated padding must comply with the minimum dimensions below

104. PADDLE

104.1. - The paddle must be double bladed with no sharp projections, edges, holes or other dangerous

features. The blades shape, thickness and radii must stay within these rules. The paddle will be scrutineered with a gauge.

104.2. - The blades are to be no more than 600mm x 250mm in plan measured from where the shaft meets the blade. The edges must have a minimum radius of 30mm in plan and a minimum thickness of 5mm. Metal tipped blades are not allowed.

104.3 - The exception to this is those blades where the metal edge is an integral part of the construction as opposed to a rim or trim added to the outside by any means. However if at any point the internal metal component is exposed then it will be considered un-fit for use in canoe polo.

105. PADDLE GAUGE

105.1. - Only official ICF Canoe Polo gauges are to be used to test compliance with these specifications. The gauges will be fabricated from sheet aluminium or stainless steel and precisely engineered, according ISO 2769-mH, by an approved ICF supplier and will be stamped with the ICF Logo, registration number and date of manufacture.

105.2. - To gauge the radius of curvature the radius portion of gauge 6, detail R, must be applied perpendicular to the surface being tested. If both points X and X' touch the surface at the same time without the rest of the paddle the radius test is passed.

105.3. - To gauge the thickness of the paddle-blade, hold the slot of gauge 6, detail Q, over the blade. If the paddle does not enter the slot, the test is passed.

106. HELMET and facemask

106.1 - The helmet must be suitable for canoeing and have a Facemask attached. The Helmet must protect the head against any blow, which may be reasonably anticipated in the course of a game. The area from the Temples to the base of the skull, such that no contact is possible between the skull and a blade of a horizontally held paddle.

Red area: Helmet

Blue area: Facemask

106.2. - The helmet and facemask must protect the entire face beginning at the lower level of the chin, and jawline and covering the surface between the two temples. There must be a minimum distance of 10mm between the facemask and the nose of the wearer.

106.3. - The facemask must be of a strong material such as steel or other equally strong material. The facemask must be securely fixed to the helmet, without any sharp edges or dangerous fixings.

106.4. - An object in the shape of a cube no smaller than 70x70x70mm must not be able to enter through the grill of the facemask. The facemask must have no horizontal or vertical opening any larger than 85mm. This will be measured by gauge 6, detail S. The gauge 6, detail S, may not enter in an opening in the horizontal or vertical plane.

Please note this measurement will decrease to 70mm
January 1st 2018

Gauge 6 – paddle, facemask and body protection

107. BODY PROTECTION

107.1. - The body protection in the form of a Personal

Floatation Device (PDF) that meets suitable accreditation standards for Canoeing. The body protection must be at least 20mm thick. To gauge the thickness of the body protection, hold the slot of gauge 6, detail P, over the body protection. If the body protection does not enter the slot, the test is passed.

107.2. - The body protection must protect against any impact from other players equipment, which may be reasonably anticipated in the course of a game.

107.3. - The body protection must begin no more than 100mm above the cockpit rim measured at the player's side, with the player sitting normally in their kayak. The gap between the top of the protection at the side and the top of the armpit measured with the arm horizontal must be less than 100mm. (These measurements may be checked at any stage during the game by either referee)

Scrutineering for major championships

For major events including World Championships and World Games, scrutineering of equipment will be a 3 - step process.

At the commencement of scrutineering, each team will present their equipment for checking.

Each player will initially be present wearing his or her Helmet (with facemask). These will be checked for compliance with section 106. Any safety issues must be rectified immediately before the team can progress further. All equipment will then be placed at Stage 1 and all players will then leave the scrutineering area.

Only one team representative may remain to oversee the scrutineering process for each team.

Each kayak will be clearly identified with the player's number and team name.

Each kayak will have a scrutineering checksheet attached to the seat. This sheet will remain with the kayak throughout scrutineering. Each team will also have a team sheet for all paddles, helmets, and body protection. (See Sample Sheet)

Any issues identified on any piece of equipment will be clearly noted on its check sheet and initialled by the scrutineer. This issue must be rectified prior to the equipment moving onto the next stage.

Step 1 - Cosmetic Checks

This step will ensure all items of equipment are uniform in colour and decals for each team.

Kayak checks will ensure any vinyl covering is of a high quality, with limited wrinkles and creases and will last the duration of the event. If vinyl covering is used it must uniform in colour and texture for the whole team.

Kayaks must be uniform in colour and logos above the edge (for World Games they must also be uniform below the edge). Clear finish must be uniform in terms of weave. Clear finish with Carbon weave is NOT considered to be the same as a solid black colour due to the different weaves and appearances.

Helmets must be of a uniform solid base colour- the practice of covering a helmet with strips or sections of vinyl or tape is no longer acceptable.

Helmet numbers must be the minimum size of 75mm high and be a clearly contrasting colour and font size to stand out from a distance. Helmet numbers must be cut from one piece of vinyl- strips of tape or vinyl to create numbers is no longer acceptable.

Apart from the numbers, all stickers and logos must be identical in size, colour and location. Previous events scrutineering stickers must be removed.

Body protection must be uniform in colour and appearance. Player numbers must be the minimum size on both sides. Front 100mm and back 200mm.

Any equipment failing the cosmetic test will result in the whole team failing. The whole team will lose their scrutineering time slot and will return for rechecking at a later time. Rechecking will take place after all other teams have had their initial checks. Practice times will not be rescheduled.

Each failed item will be subject to a 50€ fine. This fine must be paid before rechecking will occur before progressing to Step 2.

Step 2 - Safety Checks

This step will check all equipment for points of safety.

Kayaks will be tested for sharp edges, rough surfaces and padding attachment.

Kayak padding must be in new or near new condition and in one homogenous piece firmly attached to the kayak with no loose edges or ends as per the specifications. No tape, wrapping, extra foam or other substances may be used to increase the padding profile or to ensure correct attachment!

Any padding failing Step 2 must be replaced with a new padding of the appropriate type to suit the kayak design before it will pass. It is recommended that teams or individuals carry spare sets of padding for each design.

(Minor repairs can be completed during the event with tape or wrapping)

Paddles must have no sharp edges or lose tape. Edge thickness will be tested using the appropriate gauge. Edging materials such as Kevlar tape must be correctly attached with no loose edges.

Helmets must have a correctly fitting facemask that covers from the jawline to the temple that complies with the regulations (See specification in section 106).

Body protection in the form of a PFD must have the required thickness of 20mm on the front, back and sides (See specification in section 107).

(Please note- this is a NEW specification to improve player safety. PFD's that previously passed scrutineering may not meet this increased specification.)

Step 3 - Technical Checks

This step will check the technical aspects of all equipment in particular the kayaks.

Kayaks will be checked for the following:

- ICF Canoe Polo Kayak Manufacturing Label fixed inside kayak. Any kayak built after January 1st 2015 must have an ICF label permanently fixed on the inside surface in front of the seat. These kayaks will receive the following checks:
 - o Random gauge checks of all main dimensions- Length, Width, Depth and Weight
 - o Random gauge checks of all main radii and/or height/depth/width
- Any kayak built prior to January 1st 2015 that does not have an ICF Label will be subject to ALL of the standard gauges for length, width, depth, weight and radii. Note: After January 1st 2019, all kayaks must have an ICF Label to be used in ICF events including World Championships and World Games. (This does not prevent these kayaks being used in other competitions around the world.)

Any kayak failing any technical specifications will fail scrutineering and will not be able to be used in the event.

Stage 1 - Players are pre-checked wearing helmet for safety checks.
Volunteers take kayaks and equipment behind screens for cosmetic checks.

Paddles, Helmets, PFD's

Each kayak gets a scrutineering sheet attached to the seat to track progress

Stage 2 - Once cosmetic checks are passed all kayaks and equipment proceed to safety checks
(volunteers to help transfer items to new area)

Paddles

Helmets, PFD's

Stage 3 - Technical Checks. Kayaks checked for ICF Label, dimension and gauge tests

Dimension tests including length, width, depth, radii

Dimension tests including length, width, depth, radii

Once technical checks are complete, kayaks and equipment returned to team representative.
Kayaks failing technical specifications will not pass scrutineering and cannot be used.

APPENDIX III: PLAYING AREA

APPENDIX IV: GAMES AND LEAGUE SYSTEMS

Examples can be found on the ICF website (www.canoeicf.com).

APPENDIX V: SHOT CLOCK

The following Shot Clock rules will be used in any World Games, World Championships and are recommended for use in Continental Championships.

(The shot clock rules may also be used for any other competition provided all teams are clearly notified it will be used).

1. A team must attempt a shot at goal within 60 seconds of gaining possession or control of the ball. Failure to do so will result in possession of the ball and a free shot being awarded to the other team. The free shot is to be taken where the ball is at the time of the shot clock expiring. If the ball is out of play at the time the shot clock expires - the free shot will be taken from the closest point to where the ball went out of play. Signals 11 and 15 applies

2. The shot clock will be operated by the time keeper. The shot clock will be directly linked to the main game clock and will stop whenever the main game clock stops either after a goal or when either referee calls time out, or when the ball is out of play. The shot clock will restart when the referee restarts play with a whistle or when the player taking the throw holds the ball up to take the throw.

3. The shot clock will be clearly visible to all players and spectators on the field either directly above, or to the side of each goal, or in the corner of the field, on the same side as the controlling referee.

4. The shot clock will have an audible signal device of a distinctive tone that can be clearly heard by all players and officials involved in a game. The tone of the shot clock signal must be different to the main time-keepers signal. The shot clock signal will sound at the completion of 60 seconds indicating that the shot clock time has expired. The referees will confirm the change of possession with a single blast of the whistle and award a free shot to the opposition.

5. For a goal to be scored, the shot at goal must have been taken prior to the start of the shot clock expiry signal. If the ball is in flight at the time of the signal it

will be allowed to travel to completion. The ball must have left the players hand prior to the signal sounding.

6. The shot clock will be reset whenever there is a shot at goal or a change in team possession. If a team attempts a shot at goal and the ball rebounds out of bounds or back into play, the shot clock will be reset even if the same team that took the shot at goal regains possession of the ball. (Rewards attacking team for attempting shot in time).

7. If a team that is not attempting a shot at goal loses control of the ball out of bounds and regain possession as a result of a sideline throw or corner throw, the shot clock will not be reset.

8. If two players of opposing teams momentarily share possession or control of the ball, the shot clock will only be reset if there is a clear change of possession of the ball to the other team. (Covers loose ball situations where 2 players compete for it).

9. If a team momentarily loses control or possession of the ball and that team regains control or possession the shot clock will not be reset. (Covers loose passes or deflections where control is lost momentarily – rewards defense for pressure).

10. The shot clock will be reset if a team receives a free shot or if the referees plays advantage as a result of a foul by the opposing team.

(Covers blocked passes that go out of bounds and therefore rewards defending team for pressure and prevents teams repeatedly fouling to cause shot clock time to run out should also result in cards).
