2023 PANAM CHAMPIONSHIPS

Date and location to be confirmed

COVID-19 Measures for the Classification areas

Safety measures and precautions are being put in place for the classifications. The classification team will follow the IPC guidelines in respect to the COVID-19 situation.

This will result in:

- Avoiding too many persons in the waiting area
- Mandatory mask in the classification area
- Disinfectant use for athletes' hands, Classifiers hands, cleaning all material and tables after a single use, disinfecting any area touched during classification (including equipment adaption or prosthesis)
- Non-latex gloves for classifiers available (single usage)

The athlete and accompanying personnel will be asked to attend classification with their own masks.

ATHLETE CLASSIFICATION

Athletes with one of the following statuses are required to pass the classification before any competition:

- "REVIEW Status with a Fixed Review Date" before the Competition
- "REVIEW Status" or
- "New Status"

The classification schedule will be organized through a classification doodle poll, through which the Team will be able to choose a preferred date for the athlete's classification.

The detailed schedule will be communicated to each Team Leader / NF / NPC a few days after the classification pool has closed.

If an athlete fails to attend his/her classification slot, he/she will not be classified and will not be permitted to race.

PLEASE NOTE: Athletes and all their equipment are expected to be present for the entire Classification Period. Athletes must be classified separately for Kayak and Va'a.

Platform for uploading classification documents:

The Classification platform has to be used for uploading documents to the ICF Classifiers. No document should be sent by email or any other form

This platform allows a more secure and confidential transfer of documents, as well as a secure storage. It is compliant with the IPC Code on Data Protection.

- All mandatory documents should be uploaded on this platform before the specific deadline.
- An access will be required for log-in to the system. If you need a new access, please send an email to: michel.alarcon@canoeicf.sport
- The preferred format for all documents is PDF

Access to the *Classification Upload Platform*:

<https://www.canoeicf.com/classification>

Link to current Master List:

https://www.canoeicf.com/sites/default/files/classification_master_list.pdf

REQUIRED DOCUMENTS FOR CLASSIFICATION

Athletes attending classification at competitions must upload the following Paracanoë forms on the *Classification upload platform* before the classification period, with the following deadlines:

Not later than 4 weeks before the start of the classification period of the Competition (*unless otherwise indicated*)

- Paracanoë Athlete Certificate of Diagnosis
- Athlete Diagnosis Form
- Any/All other supporting medical documentation

Not later than 2 weeks before the start of the Classification period of the Competition:

- Declaration of Medical Complications & Emergency Measures
- Paracanoë Athlete Information & Consent
- Strapping waiver – this document will be valid for the whole 2023 season
- PFD waiver - this document will be valid for the whole 2023 season

Not later than 3 days before the event or before the Classification:

- Equipment passport for Kayak – if the athlete competes in a Kayak category
- Equipment passport for Va'a – if the athlete competes in a Va'a category

All documents must be completed in English.

Athlete Certificate of Diagnosis must be completed in English and signed by a medical doctor. It should also include supporting medical diagnostic documentation. In complex cases, additional supporting medical information may be requested.

The forms are available to download from the ICF Website in the Paracanoë area – in the classification page:

<http://www.canoeicf.com/discipline/paracanoë>

Any athlete who is entered in an event for which he/she has no classification will not be permitted to race.

Paracanoe athletes may enter more than one event if their classification makes them eligible to do so and the schedule permits. (NOTE: Athletes are not permitted to compete outside their classification category, ie. A KL1 category athlete may not race 'up' into KL2)

NF's are required to provide their own boats for their classification. The ICF is unable to provide a boat loan service. Federations who need to borrow boats for the competition or for classification should make boat loan arrangements early with boat manufacturers or event organizers.

EQUIPMENT PASSPORT

ALL athletes competing **MUST** complete and upload an equipment passport on the *classification upload platform*.

If the equipment passports are not completed and uploaded, the athlete will not be allowed to race. The equipment passports will be checked during classification and before each race. If the equipment does not match the equipment passports, the athlete will not be allowed to race.

If the athlete has sent an equipment passport before but has changed some equipment, a new equipment passport must be uploaded on the *classification upload platform* and the changes must be specified.

If the athlete has been given a Confirmed Status and are changing the equipment, the Chief Classifier will determine if the changes are approved.

The equipment passport form is available to download from the Paracanoe section of the ICF website.

SAFETY OF STRAPPING DEVICES

Strapping regulations : Rule 3.5.2 of Paracanoe Competition Rules

"...Any strapping used to connect the athlete with the boat must be of a "quick release" type and this can be demonstrated by the athlete prior to the competition."

The Paracanoe Committee conducted an analysis about boat strapping adaptations (rule 3.5.2) during the last Tokyo Test Event (September 2019).

This analysis showed that most of the athletes' adaptations are consistent with the rule about strapping in the boat. Unfortunately, some athletes do not appear to follow the expected safety requirements of "quick release". Inappropriate straps are potentially dangerous for the athletes in the event of a capsize.

The Paracanoe Committee strongly reminds all National Federations and Team Leaders of their responsibility in this matter.

We require all nations and athletes to ensure their full compliance with the safety rules.

ANTI-DOPING EDUCATION

For the ICF World Cups and ICF World Championships, every Paracanoe athlete must pass the anti-doping online course. The course can be accessed here:

<https://www.canoeicf.com/anti-doping-education>

The Athlete Learning Program about Health and Anti-Doping (ALPHA) gives athletes information about the dangers of doping, the importance of anti-doping controls and promotes positive attitudes to avoiding doping.

It consists of eight sessions and takes two hours to complete. Athletes are encouraged to take the course in several stages. Progress is then saved from one visit to another. A pre- and post-course anti-doping knowledge test and attitude survey is included to evaluate the effectiveness of the program.

A score of 80% or higher is required for ALPHA certification, though athletes with insufficient scores are able to repeat the program until they achieve the minimum 80% score. Those who have completed the programme in previous years do not need to redo it.

Please enter the correct identity information while creating an account, as the completion of the course will be recorded.

PARACANOE RACING RULES

For a full reading of the ICF Paracanoe Competition Rules and Classification Rules & Regulations, go to:

<http://www.canoeicf.com/discipline/paracanoe>

NOTABLE RULES for PARACANOE

(see Paracanoe Rulebook & Classification Rules for exact wording.)

A 20 euros fee will be charged for every late entry, under the condition that the entry is accepted by the Paracanoe Committee.

A 200 euro fee must accompany each Protest of a Classification.

A 75 euro fee must accompany each Protest of a Competition Rule.

National Federations are permitted two entries in all Paracanoe events.

Athletes are only permitted to race in the class in which they are classified; i.e. A KL1 category athlete can only race in KL1.

Spray skirts/Spray decks are not permitted for Paracanoe classification or Paracanoe races unless approved by the Chief Official due to inclement weather conditions. Kayaks are only permitted to have one rudder under the hull. Hence, skegs and/or projecting keels are not permitted. Rudders may be fixed.

Kayaks will be allowed weed deflectors in front of the rudder.

Only stabilizing pontoons are permitted as modifications for stability. Va'a hulls are permitted to be concave. Rudders, skegs and projecting keels are not permitted.
