Wildwater boats

One hand, we do hope elite athletes can bring their boats as many as possible.

The other hand, we are trying to buy or rent some boats for athletes who are not able to bring boat.

It's also possible to produce some boats in China if we can get the mold in October, since there is still some time.

Asian Athletes special invitation

We would like to organize a training camp in Panzhihua for young Asian athletes to give more chances to young people get involved in this sport.

Panzhihua government will cover all the expenses of training camp.

We could provide slalom and plastic boats for athletes for sure.

It's also possible to have wildwater boats if we could find enough boats.
