The World Cup Series ranking is available [here](#).

IV. Technical Video Service (TVS)

For the last two World Cups of the 2025 season in Tacen and Augsburg, the TVS files will be accessible only via a cloud solution (Dropbox). A back-up wired solution will be operated in case of malfunctioning of the cloud.

Access to the Dropbox files online is free of charge. As stipulated during the pre-season meeting, NF will be responsible for their own internet access. No specific/dedicated network will be delivered by the HOC, neither the ICF on site.

Please may you fill this [form](#) to indicate who from your team will have access to the Dropbox file for each event (1 person per nation per event). For the NF who have already answered for the whole season, we prefer to ask you to fill the form a second time to ensure a smooth and update delivery.
