b. 2025 ICF CSL World Cup 3 Prague official communication channel

5. Pre-race requirements (checklist)

a. Anti-doping education program

All athletes, coaches, and support personnel must have completed the relevant anti-doping online course on the WADA Anti-Doping Education Learning platform (ADEL) corresponding to their role. The certificates showing completion should be sent by each National Federation to sue.natoli@canoeicf.sport. Previous certificates are still valid for this season. There is no need to repeat the program unless the person's role changes (e.g. athlete becoming coach).

Accreditations will not be issued until the certificates are marked off.

More information on [ICF website](#)

[Link](#) to access ADEL program

b. Entry list checking

Once the team leader arrives on the competition site, they must go to the accreditation office to check:

- the entry list per nation and notify any modifications
- the national anthem
- the national flag

c. Official training sessions requests

If any NF has a specific request concerning the official training sessions for a competition, these ones must be sent by email to the technical managers: [Thomas Rosset](#) and [Manon Bocquet](#) before the nominal entries' deadline (10 days minimum prior to the event). No requests will be considered after that deadline.

The ICF team will try to answer at their best to those requests when building the official training schedule. Do not consider that a request sent is officially stated.

d. Guidelines for advertising on equipment

i. Generic guidelines

For canoe slalom boats, ICF Nation and athlete's name stickers are mandatory. Further information can be found in the [ICF guidelines for advertising trademark identification on equipment](#) document.

For Kayak Cross boats, only the Nation Sticker will be required. It has to be placed freely in a suitable place in front of the cockpit. The actual location may vary depending on the model of the boat. The Nation sticker is the same dimensions as for the Canoe Slalom boats.

ii. Specific guidelines for 2025 ICF CSL World Cup 3 Prague

The HOC will provide an event sponsor logo sticker, which must be placed below the NOC sticker. Stickers will be distributed together with the bibs.

e. Athlete's headshot

The ICF TV will shoot a video (8s without sound) of athletes for sport presentation. Athletes, who have not yet had a video taken, (they have been advised of this directly) should attend this short shooting session (maximum 2 minutes) in dry competition gear. Any other athletes are welcome to update their video if they wish when the studio is open and not too busy.

For the first event of the season, a specific planning will be shared and organized over the official training schedule.

f. Technical Video Service

A TVS feed download solution will be available for all events and demonstration runs.

a) Wired solution

At the beginning of the 2025 season, to access the TVS feed each team must attend a "testing" meeting **in the NF area at 12:45 on Thursday 26.06.2025** and register on the [2025 Canoe Slalom TVS management form](#). Teams who do not attend this meeting will not have access to the TVS feed.

The purpose of this meeting is to make sure that the system will work under full load and to troubleshoot any issues teams have. **Hans Peter WEISS** will be available at this time to assist the teams.

- Each NF will have access to the wired solution in their tent
- To connect correctly please follow the [TVS step by step documentation](#)

b) Cloud solution

During the season a cloud solution will be implemented. Once validated and fully operational, the TVS fees will be accessible for all the NF remotely.

For any question or assistance regarding TVS, please contact: tvsl@canoeicf.com.
