# DEAR FRIENDS, DEAR FUTURE GUESTS,

Let me begin by stating that we are picking up right where we left off! Why do I say this?

In 2024, we Hungarians had the honor of hosting the last international competition in Szeged before the Paris Olympics. Now, we have the privilege of hosting the first international event of the upcoming Olympic cycle at the legendary Maty-ér. We could say that our country is where canoeing enters the starting gate on its journey toward Los Angeles.

This is an immense source of pride for us, especially since the first competition of a new Olympic cycle is always significant. We will witness the stars of the previous Olympic Games – those who achieved immortality in Paris – as well as new contenders, the future champions, many of whom may not yet be on our radar.

I disagree with those who believe that the year following the Olympics is less important. Athletes are already beginning their preparations for the next Games; everyone is eager to win while assessing their competitors. With the changes in the qualification system, I believe we are entering an incredibly exciting Olympic cycle, starting in Szeged from 16<sup>th</sup>-18<sup>th</sup> May 2025.

As the Host Organising Committee and the Hungarian Canoe Federation, we are dedicated to welcoming the world's best kayakers and canoeists to Hungary for another world-class event! I am confident that the organizing team – who has consistently delivered exceptional work over the years – and Maty-ér, recognized as one of the best courses in the world, are fully prepared for this prestigious responsibility.

We warmly invite everyone to join us in May 2025 in the City of Sunshine for the ICF Canoe Sprint World Cup! Until then, we wish everyone the best and a successful, injury-free preparation for the athletes!

Friendly regards,

**Bálint Szakács**

Secretary General of the Hungarian Canoe Federation  
Chairman of the Host Organising Committee

## COURSE

The 2,400-metre long, 122-metre wide regatta course is located two kilometres south of Szeged. Being an artificial course, current is not an issue here and it is quite well sheltered from strong winds as well. It is equipped with a new Albano system and has nine lanes along with a separate warm-up line.

There will be electric time keeping with a photo finish camera and video recording. Automatic starting system will be used for the start. The facility fully meets the ICF requirements.

## ANTI-DOPING

For the ICF World Cup each athlete, coach and support personnel must pass the relevant anti-doping online course on the Anti-Doping Education Learning platform (ADEL) corresponding to their role. More information on the website: <https://www.canoeicf.com/anti-doping-education>

## HUNGARY AT A GLANCE

### TRAINING CAMPS IN HUNGARY

With its nice calm waters and well-known heritage in the paddling sports, Hungary is a popular destination for training camps in 2025. Due to the typically high demand, it is advisable to organize your training camps and reach out to the Hungarian Canoe Federation at [booking@szeged2025.com](mailto:booking@szeged2025.com) well ahead of time. ### GENERAL INFORMATION ON HUNGARY

Hungary is a landlocked country in Central Europe surrounded by Slovakia, Ukraine, Romania, Serbia, Croatia, Slovenia and Austria. The Danube River forms part of Hungary's north-western border with Slovakia, and then flows south through Budapest, dividing Hungary into two general regions. A low, rolling plain known as the Great Hungarian Plain, covers most of the region east of the Danube extending east to Romania and south to Serbia. Hungary has a continental climate with cold, cloudy, humid winters and warm to hot summers.

# HUNGARY

## CITY OF SZEGED

Entitled as the capital of sprint canoeing, Szeged is the seat of Csongrád County and the fourth largest city in Hungary. It is situated near the south-eastern border of Hungary right by the Tisza River. A large part of the town lies on the right bank, while Újszeged (New Szeged), a suburban district of residential homes and parks is on the left bank of the Tisza. Szeged is the cultural and economic centre of South-Eastern Hungary and a thriving university town, which is also famous for its open-air theatre. The city centre is marked by the medieval Tower of St. Demetrius and the stately twin

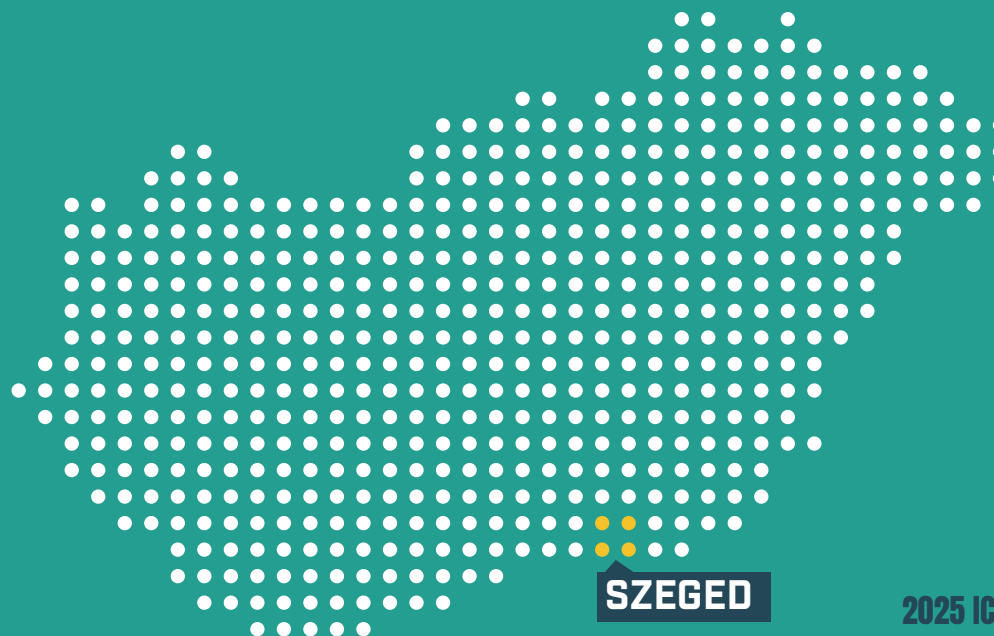

spires of the Votive Church. This cathedral was built in the first decades of the 20th century to commemorate the revival of the city after the devastating flood of the river in 1879. By Hungarian standards, Szeged is a large city, with a population of 177 000.

The climate is very favourable of canoeing; the annual mean temperature being about 11 °C (52F), somewhat higher than in the rest of the country. Szeged is sometimes called the City of Sunshine as there is an average of 2 000 hours of sunshine annually.
