This competition will be run under the [ICF Canoe Slalom Rules](#) and [Appendices](#) and according to the specific information listed in this Competition Guide.

Any decision which could be voted during the Team Leader Meeting will be updated in the Competition Guide before the start of the competition.

4. Official communication channels

a. ICF Canoe Slalom events communication channels

ICF Canoe Slalom - WhatsApp group: [official link](#)

b. 2026 ICF World Championships official communication channel

5. Pre-race requirements (checklist)

a. Anti-doping education program

All athletes, coaches, and support personnel must have completed the relevant anti-doping online course on the WADA Anti-Doping Education Learning platform (ADEL) corresponding to their role. The certificates showing completion should be sent by each National Federation to sue.natoli@canoeicf.sport. Previous certificates are still valid for this season. There is no need to repeat the program unless the person's role changes (e.g. athlete becoming coach).

Accreditations will not be issued until the certificates are marked off.

More information on [ICF website](#)

[Link](#) to access ADEL program.

b. Entry list checking

Once the team leader arrives on the competition site, they must go to the accreditation office to check:

- the entry list per nation and notify any modifications
- the national anthem
- the national flag

c. Official training sessions requests

If any NF has a specific request concerning the official training sessions for a competition, these ones should have been sent by email to the technical managers: [Manon Bocquet](#) before the numerical entries' deadline (45 days minimum prior to the event). No requests will be considered after that deadline.

The ICF team will try to match these requests when building the official training schedule. Do not consider that a request sent will necessarily be done.

d. Guidelines for advertising on equipment

i. Generic guidelines

For canoe slalom boats, ICF Nation and athlete's name stickers are mandatory. Further information can be found in the [ICF guidelines for advertising trademark identification on equipment](#) document.

For Kayak Cross boats, only the Nation Sticker is required. It has to be placed in a suitable place in front of the cockpit. The actual location may vary depending on the model of the boat. The Nation sticker is the same dimensions as for the Canoe Slalom boats.

ii. Specific guidelines for the 2026 ICF CSL World Championships

There are **NOT** sponsor stickers to put on the boat.

e. Technical Video Service

A TVS feed download solution will be available for all events and demonstration runs.

ICF TVS manager: [Hans Peter Weiss](#)

a) Cloud solution

The TVS cloud solution is the only way to access the TVS files. Each NF must register on the [2026 ICF Canoe Slalom TVS Management](#) form to indicate which person from the team will get access to the Dropbox folder for downloading the videos (one person per nation,

one link sent for the whole season). Teams who do not register through the form will not receive the link, and they will not be able to access the TVS feed.

- To connect to the Dropbox folder, simply click on the link received by email.
- NF TVS manager can see the videos on the Dropbox website. All the files of a run (full run and gate line cameras) are available between 60 and 90 sec after the athlete crosses the finish line.
- To download the files locally onto your computer, or to see the files online, no Dropbox subscription is needed. The payment is necessary only if you want to store more than 2Gb of files on a Dropbox account.

No dedicated internet connection will be provided by the HOC. If the NF wants to secure a fast internet access locally, they have to manage their own internet access solution (4g/5G Sim card, Starlink...).

b) Backup solution

In case of issues using the TVS cloud solution, a backup option is available at the enquiry desk. There, the Nation TVS managers under the supervision of the ICF TVS manager, will be able to plug their own device via a RJ45 wire and download the files needed. Keep in mind that this backup solution is limited. Access will be granted for a short period of time, and priority will be given to NF's having athletes competing in the next competition phase on that day.

For any question or assistance regarding TVS, please contact: tvsl@canoeicf.com.

c. Injury & illness report

The ICF Medical Committee has developed a new [reporting tool](#) (Microsoft Forms) through which your athletes, team leaders, and team staff can report any injury or illness occurring during an ICF competition. This tool is available across all ICF disciplines and is fully anonymous and confidential.

The purpose of this initiative is to collect data that will enable the ICF Medical Committee and the ICF Discipline Committees to assess potential risks and implement the necessary measures to ensure athlete safety.

The tool is accessible on the ICF website, under Events – Athletes – [Athlete Health and Wellbeing page](#).

We would greatly appreciate it if your athletes, team leaders, and team staff could complete the form throughout the season whenever a relevant incident occurs. A poster will also be displayed at all competition venues for reference.

d. Prevention of Harassment and Abuse in Sport (PHAS)

i. ICF policy and statement

Prevention of Harassment and Abuse in Sport (PHAS) Policy aims to protect the physical and psychological integrity of the athletes and any other person related to the paddling family.

The ICF strongly condemns harassment and abuse in all forms at any time and is committed to preventing this conduct by acting diligently to avoid its occurrence, and inappropriate situations that may give rise to their happening.

ii. The policy will be applied during ICF competitions

Suspected harassment and abuse must be immediately reported. The **report form** is available on the ICF website and will be treated with impartiality and confidentiality.

Local regulations must be followed in all cases.

The newly formed ICF Athletes Committee is here to champion your Athlete's voice, protect their wellbeing, and help shape the future of our sport. To do that effectively, the Athletes Committee needs to hear directly from the Athletes. This brief survey is the first step in building a stronger, more connected athlete community. Their insights will directly guide the Athletes Committee's goals for the upcoming year. Let's make our sport the best it can be, together!

Survey Incentive: As a thank you for the Athletes time, all athletes who complete this survey and provide their email address will be entered into a prize draw to win a Blackroll recovery set.

When you submit this form, it will not automatically collect your details like name and email address unless you provide it yourself
