Third language: SPANISH
 Reading skills: elementary
 Writing skills: poor
 Oral expression skills: elementary
- I'm effective in the Carabinieri Sports Center as a coach and manager, I know the operational dynamics, critical aspects and opportunities of the Military Sports Groups.
- Already in the National Council of the Italian National Olympic Committee as an active athletes representative, I know the dynamics of the functioning of the Italian administrative and managerial sports world, problems and opportunities.
- Excellent ability to organize and coordinate assignments, demonstrated with the review of the slalom sector of Italian Canoe Federation in the role of Sports Director who brought a growth of technical staff and consequent improvement of technical and scientific knowledge to the base school of the Nation bringing the increase in sports results at the international level. In addition, as National Manager for the C.S.E.N., sports promotion body, I know the operational dynamics, critical aspects and opportunities of the Sports Promotion Organizations. Indirectly I follow the unfolding of the family winery, learning business dynamics, problems and opportunities of a business company.
- Director of Sport Association and Sport Society since the 2000, I have developed skills in the sports association world. I have covered all the managerial figures and I am asked for sport association/society organizational consultancies for organization-reorganization of management and events planning.
- Excellent communication and teaching skills. During my competitive career I learned how to manage the communication of my personal activity and of the sport society through all the media formats, increasing and improving the personal visibility and sporting discipline of the canoe throughout the national territory.
As an athletic trainer and trainer for the slalom canoe discipline, I consider myself particularly capable of understanding the personal needs of students' understanding and adapting to their language, while not distancing themselves from federal uniformed standards and making them participants in conscious learning.
- Excellent ability to organize and coordinate assignments. Thanks to the parallel activity in the Agricultural Society, I learned to manage multiple functions and to delegate specifically the tasks assigned. The coordination of the work figures (workers and/or contractors) during the agricultural seasons at the right times and the choice of the ideal solutions for the efficiency of the work is fundamental for the success of the grape production.
- Good computer skills: Creation and management of informative websites and portals (HTML, ASP, CMS). Good knowledge of Office and Adobe packages.
