### 2. Gate line cameras

Gate line cameras are not available to teams as in ICF competition.

If a team leader wants access to the video file of the chief judge's decision (TVS, Broadcast or gate line), they can do this by bringing an IPAD or SMARTPHONE to the enquiry desk and requesting that file.

### 3. Bibs & accreditation

On the field of play if an athlete is dressed in competition clothing and wearing their bib, they are not required to carry their accreditation.

## 4. Weather conditions for the next days

We expect some bad weather conditions (e.g. wind) in the early part of next week. The ICF and Tokyo 2020 are closely monitoring the situation and will keep you updated if any decisions regarding the canoe slalom are made.

## 5. Athletes and related persons – grandstand

Tokyo 2020 agreed to open a grandstand for the athletes and related persons. This grandstand is identified with bibs on the seat.

Please respect the social distancing in the grandstand.

## 6. Rail camera – safety reminder

Despite the previous information concerning the rail camera, few people are still not respecting the request to remain outside the operational area of the camera.

Please respect as all your team members to respect it to avoid any further consequences.

**Have a nice first day of competition!**
