ADVERTISING ON EQUIPMENT AT ICF CANOE SLALOM COMPETITIONS
(boat stickers and Bibs)
Introduction

After consultation and discussion with stakeholders involved in Canoe Slalom, it has been agreed to follow a consistent standard for boat stickers at ICF Canoe Slalom Competitions.

It is thought to be a benefit to have a consistent standard, where possible, across all ICF Competitions. This clarification of space reinforces the athletes’ identification, the sponsors’ visibility and provides an homogeneous style.

Other equipments (e.g. helmet and paddles) remain available to the athlete and/or the National Federation.

Other guidelines are available from the ICF website in the National Federation Area:
- ICF Look & Style guide: use of logo and terminology
- Branding at venues: information about boat stickers and BIB (CSL)
- ICF Partners at ICF Competitions: rights and visibility of ICF partners at ICF competitions
- Various templates (boat stickers, award backdrops),...

Athlete’s name sticker

The athlete’s name sticker must be applied on all boats for ICF Canoe Slalom competitions (level 1-2). In order for the canoes and kayaks to be presented in a standard manner, the name stickers must be positioned at the same point on every boat.

It is the participating National Federations’ responsibility to provide the stickers to their athletes.

Please use the template provided by the ICF with the correct sizes and font. Templates are available on the ICF website / NF Area / Marketing.

HOCHSCHORNER P. 7 cm (letters = 6 cm)

According to name length

Font Arial bold capital letters on white background
Designation Last name / space / first letter of the first name / dot.
Letters height 6 cm
Sticker height 7 cm
Sticker length Given the wide variety of name lengths, having a single sticker length will look ungainly. Therefore, stickers will be cut to the length of the name, leaving equal left and right margins of 4 cm at each side.
Positioning of sticker Names stickers will be placed below the seam line (with a margin of 5 cm above if needed) starting 10 cm in front of the cockpit.
Sponsors logos One additional sticker with Athlete/NF Sponsor logo can be placed at each side of the athlete’s name. The dimension of the stickers must not exceed 7 cm height and 12 cm length.
Recommendation: If the space beside the name sticker is not used for logo, it is advised to display the national flag.

The athlete/NF can use this space for sponsor if not used for manufacturer logo and accordingly to the agreement between the athlete/NF and the manufacturer. ## Helmet and Paddles

Helmets and paddles can be used without restriction by athletes and/or National Federations.

**Helmet**

It is recommended to avoid accumulation of stickers (up to three; one at the front and one at each side works well) for the sake of sponsor visibility and to ensure homogeneity.

If really needed and after discussion with athletes/NF, the ICF reserves the right to add an ICF logo. Country recognition is welcome.

**Paddle**
