

2024 Wildwater Canoeing Rule Change Proposals

#	Editor: NF / BoD / CSL Committee	CR/PR/SR	ART.	EXISTING WORDING	PROPOSED WORDING. All modifications must be written in bold blue	Committee/NF Comment	Committee STAND	BOARD STAND April 2024	CONGRESS November 2024																		
2	WWC Committee & GER	PR	3.1.4	New Rule	Boats must be designed to, and remain within, the required dimensions and weight. Any additional weight needs to be permanently fixed in the boat.	clarification of boats measurements	In Favour	In Favour																			
3	GER	PR	3.1.4	New Rule	Boats must be designed to, and remain within, the required dimensions and weight.	WWC decision: Not required subject to reviewing existing rule for clarity	Not in Favour	Not in Favour																			
4	WWC Committee	PR	3.1.5	New Rule	Mass-produced (manufactured in large quantities by an automated mechanical process) plastic (rotomolded, thermoformed or blowmolded) boats freely available for purchase on open market are encouraged	Including of plastic boats	In Favour	In Favour																			
5	WWC Committee & GER	PR	3.2.2	It is not permitted to add extra components to the boat to enhance the dimension	It is not permitted to add extra components to the boat to enhance the dimension -The deck of the boat must not have any dangerous or sharp edges	clarification of boats measurements	In Favour	In Favour																			
6	GER	PR	3.3.5	New Rule	Any additional weight must be attached to the boat in such a way that it remains there during the race and cannot be removed without tools.	Explanation: In our opinion, the points correspond to the intention of the Commission's proposal. However, in our opinion, the points formulated here fit into the existing chapter subdivision (3.1 - Boat definition, 3.3 Boat - minimum weight). In addition, the wording we have chosen also allows the bolting on of boat parts or additional weights. This corresponds to practice. However, bolts are by definition a detachable connection and are therefore not included in "permanently fixed" as proposed in the wording of the commission. WWC Decision: Not required subject to reviewing existing rule for clarity	Not in Favour	Not in Favour																			
7	WWC Committee	SR	3.7.4.d	New Rule	All the buoyant material must be located in the vest above the waist.	safety requirements	In Favour	Approved the rule
