

OFFICIAL COMMUNICATION

Item – 3

SUBJECT	Chief Judge Decision
----------------	-----------------------------

Due to the rising water level the competition was stopped during the 1st heats run of C1W after bib number 20. This was at 14:13.

A delay of 17 minutes was announced to allow the water level to stabilize to the race level.

Using video feed and in consultation with the Chief Official who was at the start, it was determined that 10 boats were affected by the rising water levels.

These 10 athletes (bib 30 to bib 20) were offered a re-run.

The initial delay due to the rising water combined with the reruns means the K1M – Heats run 1 will commence at 15:04 (28 minutes delay).
