

LA28 – Paracanoe Qualification System

National Championships results requirements

As per the LA28 Paracanoe Qualification System, ICF Member Federations can apply to include one national championships' results per year to the Paralympic Qualification Ranking (PQR) with a 0.25x multiplier. In order to be fully compliant with the ranking requirements, National Federations must submit the results with the following details:

- All participating athletes must have an ICF athlete profile in Sports Data Platform (SDP) and therefore have an ICF number as a unique identifier
- National Championships races shall be „clean” with athletes only from the home nation competing
- Final results must be submitted in the required file format (link to website download), including order and type of columns and cells
- Attach a full video recording of every final race from the moments before the start until the last boat crossing the finish line
- Submit a one-page report summarizing the competition, the technical background (the method of timing and results management) and details on participation numbers and race numbers

The PQR points will be credited only if all the above five points are fulfilled; incomplete applications will not be considered towards the PQR.

The report, results export and the video recordings shall be submitted in one batch (compressed files and file transfer methods encouraged and welcome) to sport@canoeicf.sport with the subject: LA28 Paracanoe_PQR_National results within 15 days of concluding the competition.

For questions and inquiries please contact the ICF Sport Team via the email above.
