COURSE AND VENUE

The course will traverse the Mosoni-Duna and the city centre of Győr, combining sections through natural landscapes with those in an urban setting.

The start, finish, and portage areas will all be located in the same vicinity. Competitors will start from a pontoon, with boat-holders assigned to assist each participant. A 100-meter portage will be situated along the riverbank near the finish line. Both ends of the portage will feature sandy beaches for disembarkation and embarkation, eliminating the need for pontoons. The portage area will be clearly delineated with barriers and marked with red and yellow indicators at the disembarkation and embarkation points. The portage will be wide enough to accommodate at least four K2 boats simultaneously.

Electronic timing will be used, with participants carrying chips, and a photo-finish camera with video recording will be installed at the finish line.

SHORT-DISTANCE COURSE

LONG-DISTANCE/MASTERS COURSE

* **Elite:** On the first long lap without a portage, you must paddle through the passage between the floating advertisement and the dock.
Masters: Every lap without a portage, you must paddle through the passage between the floating advertisement and the dock.
