

2017 ICF CANOE FREESTYLE WORLD CHAMPIONSHIPS

OFFICIAL COMMUNICATION # 2 – WATER LEVELS CHANGE

Due to an emergency search and rescue in all river channels in the San Juan area, the water levels were dropped by 2.5 – 3 CuM/S in the evening of Tuesday 28 November 2017.

Normal water levels are planned to resume the previous 55 CuM/S from 22:00 hours on Wednesday 29 November 2017.

Water levels will be maintained the same throughout the K1 Senior Men's competition.

Thank you for your understanding and patience.

The competition committee
